Categories: Injections and Punctures

Product Description

The Complete Nursing Skills Manikin KERi™ uses Life/form® molding and modeling techniques to provide an unusually realistic appearance without being age-specific. Life/ form® simulations have been included in KERi™ to allow the practice of more than 35 patient care procedures. The training manikin fulfill all OBRA requirements. **The following nursing and patient care procedures can be performed:**

- Prostate examination (Stage B)
- Ostomy Care (Ileostomy and colostomy lavage and suctioning)
- Tracheostomy care (lavage and suctioning)
- Placement of Nasogastric tubes
- Oral and nasal lavage, gavage and suctioning
- Enema administration (female), pap smears and douching
- Intramuscular Injection (arms, thigh, buttock)
- Oral hygiene (removable upper and lower denture)
- Eye irrigation, bed baths, hair care (washing, combing)
- Patient positioning and transfer techniques, clothing changes
- Ear irrigation and hearing aid placement and removal
- Bandaging and wound dressing (including fingers and toes)
- Urinary Catheterization - Female and Male (Uncircumcised)

Visual Inspection Features include:

- Decubitus Sacral Ulcer - Stage 1
- Dilated Pupil Comparison
- Cancerous Mole Comparison
- Reddened Skin Folds

Complete Range of Motion include:

- Trunk - Rotation, Hyperextension
- Neck - Rotation, Hyperextension, Lateral Flexion
- Shoulder and hip- Abduction, Adduction, Rotation, Hyperextension
- Elbow - Extension, Flexion, Pronation, Supination
- Knee - Extension, Flexion
- Wrist - Flexion, Hyperextension, Radial Flexion, Ulnar Flexion
- Ankle - Eversion, Inversion, Dorsiflexion, Plantarflexion
- Fingers and toes - Abduction, Adduction, Flexion (soft, lifelike material)

For additional training benefits: Add the optional IV Arm Attachment and Blood Pressure Arm
The manikin is delivered with:

- Male and Female Genitalia
- Wig
- Dentures
- Hearing Aid
- *12 cc Syringe

- Lubricant Spray
- Fluid Drainage Basin
- Stomach Reservoir Bag
- Bladder Reservoir Bag
- Bladder Reservoir Pressure Sleeve
- 16 FR Foley Silicone Catheter
- *140 cc Syringe
- Enema Reservoir Bag

Delivered in a storage carton. Carry case not included.

This is the most complex and highest-value product in the session so far — a full-body nursing manikin

with 35+ procedures, a complete range of motion, visual inspection features, and a 4-tier comparison table. There is also a significant category error and a spelling mistake in the existing content. Here is the complete audit and ready-to-paste copy:

Category: ?? MISCATEGORISED — critical fix required. The KERi™ Complete Nursing Skills Manikin is filed under **Injections and Punctures**. It is emphatically not an injection/puncture trainer — it is a full nursing skills manikin covering 35+ procedures across catheterisation, ostomy care, NG tube placement, oral hygiene, patient transfer, and much more. It must be moved to **Nursing Skills & Patient Care**, which already exists as a subcategory in the site structure.

Item No. **LF04020U**, 13.5 kg, Make: **Nasco Healthcare, USA ?** — Make/Brand populated. **Spelling error in comparison table:** "Intramascular" ? **"Intramuscular"** and "Rocognition" ? **"Recognition"** — both must be corrected. Description has good OEM structure but lacks India-market framing, OBRA context for Indian buyers, optional attachment cross-sell prominence, and FAQ. The comparison table is an excellent asset — retain and fix spellings.

Note on the comparison table: The table links in the existing description point to 3B Scientific UK URLs — these are dead external links for Indian buyers and should be updated to internal SEM Trainers product pages where those SKUs exist, or the links should be removed and replaced with plain text item numbers.

DESCRIPTION (copy-paste into WordPress product description):

Why Choose the KERi™ Complete Nursing Skills Manikin for Your Nursing College or Skills Lab in India?

The KERi™ Complete Nursing Skills Manikin (Item No. LF04020U) is a 13.5 kg full-body adult female nursing skills manikin from Nasco Healthcare, USA — the mid-tier model in the four-level KERi™/GERi™ family, and the most comprehensively capable nursing manikin available at its price point. It covers over 35 patient care procedures across every major domain of the nursing curriculum, fulfils all OBRA requirements, and is the most commonly specified nursing manikin for General Nursing and Midwifery (GNM), B.Sc. Nursing, and Post-Basic Nursing programmes in India where a single manikin must serve the full nursing skills lab curriculum without the cost of an advanced or auscultation model.

KERi™ is age-neutral by design — Nasco Healthcare's Life/form® moulding process produces a realistic adult appearance without committing to a specific patient age, making her suitable for both adult and general nursing scenarios without the geriatric-specific positioning of the GERi™ manikin.

Both male and female genitalia are included, allowing male and female urinary catheterisation, peri-care, and prostate examination training on the same unit.

Nursing and Patient Care Procedures Trainable (35+):

- Prostate examination (Stage B)
- Ostomy care — ileostomy and colostomy, lavage and suctioning
- Tracheostomy care — lavage and suctioning
- Nasogastric tube placement
- Oral and nasal lavage, gavage and suctioning
- Enema administration (female), pap smears and douching
- Intramuscular injection — arms, thigh, and buttock
- Oral hygiene — removable upper and lower dentures
- Eye irrigation, bed baths, hair care (washing, combing)
- Patient positioning and transfer techniques, clothing changes
- Ear irrigation and hearing aid placement and removal
- Bandaging and wound dressing — including fingers and toes
- Urinary catheterisation — female and male (uncircumcised)

Visual Inspection Features:

- Decubitus Sacral Ulcer — Stage 1
- Dilated Pupil Comparison
- Cancerous Mole Comparison
- Reddened Skin Folds

Complete Range of Motion:

- Trunk — rotation, hyperextension
- Neck — rotation, hyperextension, lateral flexion
- Shoulder and hip — abduction, adduction, rotation, hyperextension
- Elbow — extension, flexion, pronation, supination
- Knee — extension, flexion
- Wrist — flexion, hyperextension, radial flexion, ulnar flexion
- Ankle — eversion, inversion, dorsiflexion, plantarflexion
- Fingers and toes — abduction, adduction, flexion (soft, lifelike material)

Optional Add-ons for Enhanced Training: Two optional attachments expand the KERi™ Complete into Advanced-tier capability:

- **IV Arm Attachment** — adds intravenous insertion training

- **Blood Pressure Arm** — adds BP monitoring and auscultation training

Contact SEM Trainers for pricing and availability of both optional attachments.

Box Contents: Male and female genitalia, wig, dentures, hearing aid, 12 cc syringe, lubricant spray, fluid drainage basin, stomach reservoir bag, bladder reservoir bag, bladder reservoir pressure sleeve, 16 FR Foley silicone catheter, 140 cc syringe, and enema reservoir bag. Delivered in a storage carton. Carry case not included.

See the KERi™/GERi™ comparison table below to select the correct tier for your lab's curriculum requirements.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states in India. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Frequently Asked Questions

Q: What is the difference between KERi™ and GERi™? A: KERi™ is Nasco Healthcare's adult female manikin — age-neutral in design, suitable for general adult nursing scenarios. GERi™ is the elderly care variant with additional age-specific features for geriatric nursing training. Both are available in Basic, Complete, Advanced, and Auscultation tiers.

Q: What is the difference between the Complete and Advanced KERi™? A: The KERi™ Complete (LF04020U) covers all core nursing procedures including catheterisation, ostomy care, NG tube placement, and IM injection. The KERi™ Advanced adds IV insertion and blood pressure monitoring. See the comparison table on this page for the full feature breakdown.

Q: Does this manikin support both male and female catheterisation? A: Yes. Both male and female genitalia are included in the box, enabling female urinary catheterisation, male urinary catheterisation (uncircumcised), peri-care, and prostate examination (Stage B) on the same manikin.

Q: Does this manikin fulfil OBRA requirements? A: Yes. The KERi™ Complete Nursing Skills Manikin fulfils all OBRA (Omnibus Budget Reconciliation Act) nursing curriculum requirements.

Q: Is a carry case included? A: No. The manikin is delivered in a storage carton. A carry case is not included.

Q: Are the replacement joint parts available for this manikin? A: Yes — replacement joints for the blood pressure arm are available separately on this site (see Replacement Joint for Blood Pressure Arm on KERi™ and GERi™, Item No. LF03351U).
