Product Description

The clinical skills training manikin is for in-hospital infant professionals. Nursing Baby is an infant manikin designed for scenario-based training of the care and management of a variety of infant in-hospital patients. Possible training includes: sounds auscultation IV and IO skills fontanelle assessment urinary catheterization general pediatric patient care This infant is unrivaled for clinical training in core

pediatric in-hospital clinical skills. **SimPad Plus System and LLEAP Software Required.** Product benefits include:

- Educationally effective for training of in-hospital infant skills
- Pre-programmed scenarios provide standardized training while customizable scenarios
- real time instructor control allows adaptation to meet individual students needs
- Effective education in the special care of infant patients
- Economical and educationally efficient skills and scenario based trainer for care and management of a variety of common and uncommon in-hospital infant patients in multiple clinical settings and hospital transport
- Durable, rugged and lifelike; made to withstand years of use
- Normal, bulging and depressed fontanelles for assessment and diagnosis
- Head with anatomical landmarks, trachea and esophagus along with simulated lungs
- stomach allows the practice of many procedures, including NG, OG, tracheal care
- suctioning
- Bilateral deltoid and bilateral thigh intramuscular injections are possible
- Articulating IV arm and IV leg allows for practice of IV cannulation, medication, administration, site care and maintenance
- Medication and fluid administration through intraosseous infusion allowed via tibia
- access with landmarks at the tibial tuberosity and medial malleolus
- Gastrostomy tube opening for care and feeding
- Presents normal and abnormal heart, breath, and bowel sounds for auscultation
- Interchangeable genitalia allows for urinary catheterization with fluid return
- rectal temperature simulation, and administration of suppositories
- Pre-programmed scenarios aid educators in standardizing teaching

Supplied with: Full-Body Infant Manikin, 3 Simulated Rectal Suppositories, Manikin Lubricant, Baby Pants, Simulated Blood, Carry Case, Directions for Use.

Nursing Baby, SimPad Capable — Infant Clinical Skills Manikin for In-Hospital Pediatric Training

The Nursing Baby, SimPad Capable (Item No. 1005245 [W19571], MPN: 365-05050, 6.515 kg) by **[CONFIRM MANUFACTURER]** is a full-body infant manikin built for scenario-based training in the care and management of in-hospital pediatric patients. It requires a SimPad Plus System and LLEAP Software to run scenarios — confirm your institution's existing simulation hardware setup before ordering.

Core skills covered: heart, breath, and bowel sound auscultation (normal and abnormal); IV and IO access via an articulating IV arm and IV leg, including tibial intraosseous infusion; fontanelle assessment (normal, bulging, and depressed); urinary catheterization with fluid return via interchangeable genitalia; bilateral deltoid and thigh intramuscular injections; NG/OG tube placement

and tracheal suctioning through the stomach and airway; gastrostomy tube care and feeding; and rectal temperature simulation with suppository administration.

Why this matters for a nursing or pediatric skills lab in India: the manikin combines pre-programmed, standardized scenarios with real-time instructor control, so faculty can run the same baseline scenario across a cohort for fair assessment, then adapt it live for individual students who need more or less challenge — useful for OSCE-style pediatric stations as well as regular skills practice.

Supplied with: Full-Body Infant Manikin, 3 Simulated Rectal Suppositories, Manikin Lubricant, Baby Pants, Simulated Blood, Carry Case, Directions for Use.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical simulators and clinical skills trainers to 1,500+ institutions across 28 states in India. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Do we need additional hardware to use this manikin? A: Yes — a SimPad Plus System and LLEAP Software are required to run scenarios. Confirm with our team whether you need these as part of your order.

Q: What pediatric skills can be trained on this manikin? A: Auscultation, IV/IO access, fontanelle assessment, urinary catheterization, intramuscular injection, NG/OG and tracheal care, gastrostomy care, and rectal temperature/suppository administration.
