Categories: Injections and Punctures

Product Description

Replacement kit for **Life/form®** Pediatric Lumbar Puncture Simulator (LF01000U).

Pediatric Lumbar Puncture Replacement Kit — Refresh Parts for the Life/form® Pediatric Lumbar Puncture Simulator

The Pediatric Lumbar Puncture Replacement Kit (Item No. LF01000(A)U, 0.23 kg) by Nasco Healthcare, USA is the designated replacement kit for the Life/form® Pediatric Lumbar Puncture Simulator (Item No. LF01000U). It's built for institutions that already own the base simulator and need to refresh consumable or wear-prone components after repeated student use.

[CONFIRM KIT CONTENTS] — add the specific parts included (e.g., replacement skin pad, spinal

column insert, simulated CSF reservoir) once confirmed from the Nasco spec sheet or brochure, so buyers know exactly what they're ordering.

Why replacement kits matter for a busy skills lab: lumbar puncture trainers see repeated needle insertion at the same anatomical site across a term's worth of students, and the puncture area typically wears faster than the rest of the simulator. A dedicated replacement kit extends the working life of the base simulator without requiring a full unit replacement — a more economical way to keep the trainer classroom-ready.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and clinical skills trainers to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Which simulator does this replacement kit fit? A: The Life/form® Pediatric Lumbar Puncture Simulator, Item No. LF01000U. Confirm you have this exact base unit before ordering.

Q: What's included in the kit? A: Contact our team for the current parts list — we'll confirm exactly what's included before you order.
