Life/form® Multi-Venous IV & Injection Arm with continuous circulation pump, light skin tone

Item No. LF01271A

Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories: Injections and Punctures

Product Description

A new and improved evolution of the sophisticated Life/form® Venipuncture and Injection Arm with complete venous access. This trainer simulates a complete full size adult male arm. Build critical skills for when it counts.

- Upgraded with soft, lifelike skin feel that is long-lasting and durable.
- Narrowed floating vein site.

- Intramuscular and intradermal injections.
- Blood drawing and intravenous infusion.
- Primary vein, secondary vein, and IV access.
- Non-visible/non-palpable vein access.
- Rolling, disappearing, and difficult vein access simulation.

Complete venous access: Hand veins

- Dorsal metacarpal veins
- Dorsal Intercapitular veins
- Branch of cephalic vein of thumb

Arm veins

- Basilic vein
- Cephalic vein
- Median cephalic vein
- Median basilic vein
- Median cubital vein
- Median antebrachial vein
- Accessory cephalic vein

Accessories included

- cc syringe with needle (for training purposes only and do not meet standards for use on actual patients)
- 12 cc syringe with needle (for training purposes only and do not meet standards for use on actual patients)
- 2 fluid supply bags
- Infusion butterfly needle (for training purposes only and do not meet standards for use on actual patients)
- Pinch clamp
- 2 small towels
- Infusion needle
- Blood powder bottle (2 pints)
- Continuous circulation pump

The Life/form® Multi-Venous IV & Injection Arm with continuous circulation pump (Item No. LF01271A, Make: Nasco Healthcare, USA) is a new and improved evolution of the Life/form® Venipuncture and Injection Arm, simulating a complete, full-size adult male arm with complete venous access.

What sets it apart: this trainer goes beyond straightforward vein access to simulate real-world venipuncture challenges — rolling, disappearing, and difficult-to-access veins, plus non-visible and non-palpable vein sites. That's a genuinely different training focus from a standard IV arm, giving students practice for the harder cases they'll face in clinical settings, not just textbook-easy veins.

Key upgrades and features:

- Soft, lifelike, long-lasting and durable skin feel
- Narrowed floating vein site for more realistic technique challenge
- Support for intramuscular and intradermal injections, alongside blood drawing and IV infusion
- Primary vein, secondary vein, and IV access practice

Complete venous access includes:

- **Hand veins:** dorsal metacarpal veins, dorsal intercapitular veins, branch of cephalic vein of thumb
- **Arm veins:** basilic, cephalic, median cephalic, median basilic, median cubital, median antebrachial, and accessory cephalic veins

What's included:

- 3cc and 12cc syringes with needles
- 2 fluid supply bags
- Infusion butterfly needle
- Pinch clamp
- 2 small towels
- Infusion needle
- Blood powder bottle (2 pints)
- Continuous circulation pump

Important note: The included syringes and needles are for training purposes only and do not meet standards for use on actual patients.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What makes this arm different from a standard venipuncture trainer? A: It specifically simulates

difficult access scenarios — rolling, disappearing, and non-visible/non-palpable veins — in addition to standard vein access.

Q: Can the included syringes and needles be used on real patients? A: No — all included syringes, needles, and the butterfly needle are for training purposes only and do not meet standards for patient use.

Q: What injection types can be practiced beyond IV access? A: Intramuscular and intradermal injections, along with blood drawing and intravenous infusion.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
