Categories: Moulage and Wound Simulation

Product Description

The most economical way to get started in simulated injuries is with this Casualty Simulation Kit. Reusable wounds and refillable accessories let you practice bandaging and splinting techniques repeatedly. The casualty simulation kit is supplied in a storage case and includes: Bleeding wound (complete with reservoir bags with pump assembly): • 1 compound fracture tibia Non bleeding wounds: • 12 assorted stick-on lacerations and open fracture wounds Make Up Accessories: • 1 atomizer mist sprayer • 1 bottle coagulant makeup blood • 1 pkg. blood powder for 4.5 liter simulated blood • 1 casualty simulation wax • 1 pkg. broken Plexiglas® for simulating glass embedded wound • 4 grease paint colors: white, blue, brown and red • 1 pkg. methyl cellulose for blood thickening • 1 body adhesive for stick-on wounds • 3 spatulas • 3 tongue depressors

Basic Casualty Simulation Kit (Nasco Healthcare) — Entry-Level Moulage Training

Kit for India

The Basic Casualty Simulation Kit (Item No. 800-815U, Brand: Nasco Healthcare, USA) is the most economical way to introduce simulated injury training. Reusable wounds and refillable accessories let trainees practice bandaging and splinting techniques repeatedly, making it a cost-effective entry point into moulage training. The kit is supplied in a storage case for easy transport and reuse.

Bleeding wound (with reservoir bag and pump assembly for realistic bleeding simulation): one compound fracture of the tibia.

Non-bleeding wounds: 12 assorted stick-on lacerations and open fracture wounds.

Makeup accessories: an atomizer mist sprayer, coagulant makeup blood, blood powder (enough for 4.5 liters of simulated blood), casualty simulation wax, broken Plexiglas for glass-embedded wound simulation, four grease paint colors (white, blue, brown, red), methyl cellulose for blood thickening, body adhesive for stick-on wounds, spatulas, and tongue depressors.

These tools bring a genuine sense of reality to medical emergency training exercises, giving trainees hands-on practice with realistic wounds and simulated blood.

Specifications: Dimensions 33 x 25.5 x 13 cm. Weight 1.919 kg. Brand: Nasco Healthcare, USA.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying moulage and wound simulation equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ Q: What's included in the Basic Casualty Simulation Kit? A: One bleeding compound tibia fracture with reservoir bag and pump assembly, 12 non-bleeding stick-on lacerations and fracture wounds, and a full set of makeup accessories including simulated blood, grease paints, and application tools.

Q: How is this different from the Advanced Casualty Simulation Kit? A: This is a smaller, more economical entry-level kit with fewer wounds and accessories — ideal for institutions starting out with moulage training or working with a limited budget.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
Bring a sense of reality to medical emergency training with the use of these tools such as simulated blood and wounds. [embed] https://www.youtube.com/watch?v=vieTZfvsecg [/embed]
