Advanced Casualty Simulation Kit

Item No.	800-816U
Weight	4.8kg
Dimensions	25.5 x 23 x 46 cm
Make:	Nasco Healthcare, USA

SKU:

Categories: Moulage and Wound Simulation

Product Description

This medical emergency simulation kit gives you more complex wounds for testing higher levels of skill in bandaging and patient care while keeping initial expenditures low. The casualty simulation kit is supplied in a storage case and includes: Bleeding wounds (complete with reservoir bags with pump assembly): • 1 open amputation • 1 compound fracture of humerus • 1 compound fracture of tibia • 1 sucking wound of chest • 1 gunshot wound of palm Non-bleeding wounds: • 24 assorted stick-on

lacerations and open fracture wounds Make Up Accessories: • 1 bottle coagulant make up blood • 1 pkg. methyl cellulose for blood thickening • 3 pkg. blood powder, each for 4.5 liter simulated blood • 1 body adhesive for stick-on wounds • 1 casualty simulation wax • 1 pkg. broken Plexiglas® for simulating glass embedded wound • 4 grease paint colors: white, blue, brown and red • 4 reservoir bags with pump assembly • 1 atomizer mist sprayer • 3 spatulas • 3 tongue depressors

Advanced Casualty Simulation Kit (Nasco Healthcare) for Moulage & Wound Simulation Training in India

The Advanced Casualty Simulation Kit (Item No. 800-816U, Brand: Nasco Healthcare, USA) provides complex, realistic wound presentations for training bandaging and patient-care skills at a higher difficulty level, while keeping initial equipment costs manageable. The kit arrives in a storage case for easy transport and reuse.

Bleeding wounds (each with reservoir bags and pump assembly for realistic bleeding simulation): one open amputation, one compound fracture of the humerus, one compound fracture of the tibia, one sucking chest wound, and one gunshot wound of the palm.

Non-bleeding wounds: 24 assorted stick-on lacerations and open fracture wounds for lower-acuity training scenarios.

Make-up accessories: coagulant simulated blood, methyl cellulose for blood thickening, blood powder (three packets, each making 4.5 liters of simulated blood), body adhesive for stick-on wounds, casualty simulation wax, broken Plexiglas for glass-embedded wound simulation, four grease paint colors (white, blue, brown, red), four reservoir bags with pump assembly, an atomizer mist sprayer, three spatulas, and three tongue depressors.

This range of moulage tools brings a heightened sense of realism to medical emergency and mass-casualty training exercises.

Specifications: Dimensions 25.5 x 23 x 46 cm. Weight 4.8 kg. Brand: Nasco Healthcare, USA.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying moulage and wound simulation equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ Q: What wounds are included in the kit? A: Five bleeding wounds with reservoir bags (amputation, two compound fractures, a sucking chest wound, and a gunshot wound), plus 24 non-bleeding stick-on lacerations and fracture wounds.

Q: What make-up accessories are included for realistic simulation? A: Coagulant blood, blood-thickening powder, body adhesive, casualty simulation wax, broken Plexiglas for glass-embedded wounds, grease paints, reservoir bags, an atomizer sprayer, and application tools.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.

With details like simulated blood this casualty simulation kit brings a sense of reality to medical emergency training sessions. [embed] https://www.youtube.com/watch?v=vieTZfvsecg [/embed]
