Pregnancy Pelvis Model in Median Section with Removable Fetus (40 weeks), 3-Part (3B Scientific) for India

The Pregnancy Pelvis Model in Median Section with Removable Fetus (Item No. 1000333 [L20], Brand: 3B Scientific) shows a median section through the female pelvis at 40 weeks, with a removable fetus for hands-on study of normal fetal positioning before birth.

The model also depicts the female reproductive and urinary systems in the same section, and includes a separate uterus with embryo at the third month of pregnancy mounted on the base — giving trainees a direct comparison between early and full-term pregnancy in a single teaching tool. High-quality detail throughout the female genital organs makes this a strong addition to any anatomy classroom, nursing program, or clinic.

Includes free access to 3B Smart Anatomy: 23 digital anatomy lectures, 117 virtual anatomy models, and 39 quizzes via the Complete Anatomy app, plus a warranty upgrade from 3 to 5 years on product registration.

Specifications: Dimensions 38 x 25 x 40cm. Weight 2.5kg.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying anatomical models and pregnancy/childbirth health education equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ

Q: What does this model show? A: A median section through the female pelvis at 40 weeks pregnant, with a removable fetus, alongside a separate embryo-at-3-months uterus on the base.

Q: What's included with the 3B Smart Anatomy registration? A: Free access to 23 lectures, 117 virtual models, and 39 quizzes in the Complete Anatomy app, plus an extended 5-year warranty.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
