**SKU:**

**Categories:** Human Patient Simulator

## Product Description

The first Patient Communication Simulator that sees, listens, and responds using artificial intelligence (AI). ALEX is an untethered, on-the-go patient simulator. Simply unpack, and you're ready to train – anytime, anywhere (Wi-Fi required). Speaks and understands English, French, and Spanish. ALEX learns new languages all the time so it can help train more learners all around the globe. Key Features:

60-day simulation log archive Iris Cam livestream patient perspective during simulated events Speech recognition up to 250 questions per day 1-year warranty Built-in microphone and speakers Patient monitoring with vitals and waveforms Intubation – oral, nasal and digital Scenarios included with customizable patients Artificial intelligence (AI) voice responses Cloud-connected and accessible from all devices Scenario-driven, instructor-controlled 8-hour battery life Build critical thinking, decision-making & priority-setting skills Perform patient physical assessment Evaluate vitals and waveforms with simulated patient monitor Practice I.V. administration, catheterization, airway management Weight: 45 lbs. (20 kg) Sh. wt.: 67 lbs. (30 kg)

## **ALEX Lite — Light Skin Tone (Nasco Healthcare) — Portable AI Patient Communication Simulator for India**

The ALEX Lite (Item No. 101-7130, Brand: Nasco Healthcare, USA) is the first Patient Communication Simulator that sees, listens, and responds using artificial intelligence. It's untethered and fully portable — simply unpack it and you're ready to train anytime, anywhere (Wi-Fi required). ALEX speaks and understands English, French, and Spanish, with new languages added over time to support learners around the globe.

**Key Features:** 60-day simulation log archive; Iris Cam livestream of the patient's perspective during simulated events; speech recognition handling up to 250 questions per day; built-in microphone and speakers; patient monitoring with vitals and waveforms; intubation training (oral, nasal, and digital); included scenarios with customizable patients; AI voice responses; cloud connectivity accessible from all devices; scenario-driven, instructor-controlled sessions; and 8-hour battery life.

ALEX Lite helps build critical thinking, decision-making, and priority-setting skills, and lets trainees perform patient physical assessment, evaluate vitals and waveforms on a simulated patient monitor, and practice IV administration, catheterization, and airway management.

**Specifications:** Weight 45 lbs (20 kg). Shipping weight 67 lbs (30 kg). Brand: Nasco Healthcare, USA. Warranty: 1 year.

**Why Buy from SEM Trainers?** SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying advanced patient simulation technology to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

**FAQ Q:** Does ALEX Lite need to be plugged in to work? **A:** No — it's untethered and portable, requiring only Wi-Fi and its 8-hour battery to run training sessions anywhere.

**Q:** What languages does ALEX Lite support? **A:** English, French, and Spanish, with new languages

added over time.

Q: How do I order from SEM Trainers? A: Contact [sem@semtrainers.com](mailto:sem@semtrainers.com) or call +91-88495 63724 for pricing and availability.
