TERi™ Androgynous Geriatric Patient Simulator - Light

Item No. LF04302EX

Weight 108 lbs. (49 kg)

Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories: Geriatric Patient Care

Product Description

A comprehensive male/female elderly patient care trainer for medical simulation. Evolving from our GERi/KERi full-body manikins, it has a more realistic look and feel accurately representing the human anatomy. Weight is distributed to represent a real patient for lifting and carrying. This complete simulation comes with auscultation and patient monitoring.

Passive Range of Motion

- Seating, laying, finger/toe manipulation with no effort from the patient

Cardiovascular Support

- Carotid pulses, CPR with quality performance metrics and auscultation

Intravenous, Injection, Subcutaneous Injection Sites

- Multiple locations equipped with standard arm IM injection pads

Nasogastric Tube Procedures

- Placement
- Lavage
- Gavage
- Feeding and suctioning

Enhanced Aesthetics

- Soft silicone skin with noticeable normal and cancerous skin moles
- Stage 1 sacral ulcer
- Reddened skin folds

Respiratory Support

- Manual ventilation with chest rise
- Oxygen administration
- Tracheostomy care
- Airway/trach suctioning
- Airway intubation, ventilation and auscultation.

Grooming & Daily Living Assistance

- Bathing, clothing changes
- Denture placement/removal
- Hearing aid placement/removal
- Eye irrigation and optic drops
- Ostomy and urinary catheter care
- Haircare

Indwelling Male & Female Urinary Catheterization

- Includes support for urethral and suprapubic catheters

Advanced Skills

- Urinary catheterization
- Enema administration
- Pelvic and prostate examination

TERi™ Androgynous Geriatric Patient Simulator – Light (LF04302EX)

A comprehensive male/female elderly patient care trainer for medical simulation. Evolving from the GERi™/KERi™ full-body manikins, TERi™ (Item No. LF04302EX) by Nasco Healthcare, USA offers a more realistic look and feel, accurately representing human anatomy. Weight is distributed to represent a real patient for lifting and carrying practice. This complete simulation comes with auscultation and patient monitoring.

Passive range of motion. Seating, laying, and finger/toe manipulation, all achievable with no effort from the "patient."

Full cardiovascular support. Carotid pulses, CPR with quality performance metrics, and auscultation.

Comprehensive injection training. Multiple intravenous, injection, and subcutaneous injection sites equipped with standard arm IM injection pads.

Nasogastric tube procedures, including placement, lavage, gavage, feeding, and suctioning.

Enhanced aesthetics for a lifelike trainer. Soft silicone skin with noticeable normal and cancerous skin moles, a stage 1 sacral ulcer, and reddened skin folds.

Full respiratory support, including manual ventilation with chest rise, oxygen administration, tracheostomy care, airway/trach suctioning, and airway intubation, ventilation, and auscultation.

Comprehensive grooming and daily living skills, including bathing, clothing changes, denture placement/removal, hearing aid placement/removal, eye irrigation and optic drops, ostomy and urinary catheter care, and hair care.

Indwelling male and female urinary catheterization, with support for both urethral and suprapubic catheters.

Advanced skills covered, including urinary catheterization, enema administration, and pelvic and prostate examination.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: How does this compare to the standard TERi™ Trainer (LF04300)? A: This Simulator adds full cardiovascular, respiratory, and advanced GU/GI skills — including auscultation, CPR performance metrics, nasogastric procedures, and pelvic/prostate examination — beyond the Trainer's grooming and daily-living focus.

Q: Can it be used for CPR training with performance feedback? A: Yes — it supports CPR with quality performance metrics and auscultation.
