Life/form® Complete IV Arm and Pump Set

Item No. LF00706
Weight
Make: Nasco Healthcare, USA

[Read More](#)

SKU:LF00706

Categories: Injections and Punctures

Product Description

A complete set of IV arm simulators for blood collections, intravenous injection, and infusion. The arms are designed to allow training in real clinical settings, with delicate needle-tip resistance and flashback confirmation. Simulators feature soft material with realistic tactile feeling and offer true-to-life needle-tip resistance. The circulation pump offers leak-free connections with easy setup and maintenance.

Includes:

- Life/form® Adult Injectable Training Arm (LF00698U)
- Life/form® Pediatric Arm (LF00958U)
- Life/form® Infant IV Arm (LF03637U)
- Three pint bottles with simulated blood powder

- Six fluid supply bags
- Three 3 cc syringes
- Two butterfly sets
- Two 22-gauge needles
- Six white towelettes
- Four clamps
- 12 cc luer lock syringe
- 25-gauge infusion set
- IV arm circulation pump
- Power adapter
- Battery power adapter
- Tubing assembly
- Pump tube replacement
- Tubing adapters

Why Choose the Life/form® Complete IV Arm and Pump Set for Your Nursing Skills Lab in India?

The Life/form® Complete IV Arm and Pump Set (Item No. LF00706, Make: Nasco Healthcare, USA) is a genuinely different proposition from a single training arm: it's a **three-arm, multi-age bundle** — adult, pediatric, and infant — paired with a powered circulation pump, giving your lab a complete IV and blood-collection training system across patient age groups in one purchase.

Each arm is designed for training in realistic clinical conditions, offering true-to-life needle-tip resistance and flashback confirmation so students learn to recognize successful venous access the way they would on a real patient. The soft, tactile material closely mimics real tissue feel, and the circulation pump provides leak-free connections with easy setup and maintenance for repeated classroom use.

What's included:

- Life/form® Adult Injectable Training Arm (LF00698U)
- Life/form® Pediatric Arm (LF00958U)
- Life/form® Infant IV Arm (LF03637U)
- Three pint bottles of simulated blood powder
- Six fluid supply bags
- Three 3cc syringes
- Two butterfly sets
- Two 22-gauge needles
- Six white towelettes
- Four clamps
- 12cc luer lock syringe

- 25-gauge infusion set
- IV arm circulation pump with power adapter and battery power adapter
- Tubing assembly, pump tube replacement, and tubing adapters

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Does this set cover more than one patient age group? A: Yes — it includes three separate arms: adult, pediatric, and infant, giving you a complete age-range IV training system in one kit.

Q: Is a circulation pump included? A: Yes — the set includes a powered IV arm circulation pump with both a power adapter and a battery power adapter, along with tubing and replacement parts.

Q: Does this trainer give flashback confirmation? A: Yes — each arm is designed with true-to-life needle-tip resistance and flashback confirmation for realistic technique practice.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
