Sani Man

Item No. 100-2131

Weight 13 lbs.

Brand Nasco Healthcare

[Read More](#)

SKU:100-2131

Categories:BLS Adult

Product Description

The economical Sani CPR manikins feature easy installation of a single-use airway/face shield system. Visible anatomical landmarks include the sternum and the rib cage, plus substernal notch. The manikins also simulate the realistic head tilt and chin lift necessary for opening the airway. A chest rise demonstrates a successful rescue breath. The student can change the airway/face shield system very quickly. The use of the disposable, economical airway/face shield avoids cross-contamination and does not require cleaning, disinfecting, or disassembly! Carry bag not included. Size: 28" x 17" x 10". Ship weight 13 lbs.

Item No. 100-2131, 13 lbs (? 5.9 kg), 28" x 17" x 10" (? 71 x 43 x 25 cm), Brand: Nasco Healthcare ?. Single-unit, no carry bag — the base economy Sani manikin platform that the Sani Manikin 4-Pack (100-2145) and the Econo VTA (100-2160) are both built on.

DESCRIPTION (copy-paste into WordPress product description):

Why Choose the Sani Man for Your Simulation Lab in India?

The Sani Man (Item No. 100-2131) by Nasco Healthcare, USA is a 13 lbs. (? 5.9 kg), 28" × 17" × 10" economical CPR training manikin featuring easy installation of a single-use airway/face shield system. For BLS certification centres, schools, nursing colleges, and community CPR outreach programmes in India that need a basic, no-frills single-unit manikin for instructor-led CPR training, the Sani Man is the foundation platform behind the Economy Adult Sani-Manikin range and the Econo VTA CPR Trainer (100-2160).

Visible anatomical landmarks — the sternum, rib cage, and substernal notch — give trainees the correct surface reference points for hand placement and pulse-check positioning. The manikin simulates realistic head tilt and chin lift necessary for opening the airway, and a visible chest rise confirms a successful rescue breath. The student can change the airway/face shield system very quickly between uses — the disposable, economical airway/face shield avoids cross-contamination and requires no cleaning, disinfecting, or disassembly between trainees, making it practical for back-to-back group training sessions. Carry bag not included.

For training centres wanting built-in light feedback on the same platform, the Econo VTA CPR Trainer adds a VTA feedback system to this exact manikin build. For bulk group training, the Economy Adult Sani-Manikin 4-Pack with Carry Bag (100-2145) bundles four units with consumables and storage.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Frequently Asked Questions

Q: Does the Sani Man include feedback for compression rate or depth? A: No. For the same platform with built-in VTA light feedback, see the Econo VTA CPR Trainer (100-2160).

Q: Is a carry bag included? A: No. The Sani Man ships without a carry bag. For a bundled set with carry bag, see the Economy Adult Sani-Manikin 4-Pack (100-2145).

Q: What are the dimensions and weight? A: 28" × 17" × 10" (approx. 71 × 43 × 25 cm), ship weight 13 lbs. (approx. 5.9 kg).
