Product Description

The Economy Adult Sani-Manikin is lifelike and affordable, these CPR trainers let you provide students with their own manikin. The simple face shield lung system means no cleaning, no disinfecting, and no disassembly required. The manikins include head tilt/chin lift feature to open the airway, tough vinyl skin for extended service, and a foam-filled torso for resistance to compressions, palpable landmarks to ensure proper hand placement, and observable chest rise to verify ventilation. Includes three airways and instructions for use. Size: 19" x 15" x 9". Ship weight 7 lbs.

Why Choose the Economy Adult Sani-Manikin (Without Carry Bag) for Your Simulation Lab in India?

The Economy Adult Sani-Manikin, Without Carry Bag (Item No. 100-2144) by Nasco Healthcare, USA is a 7 lbs. (? 3.18 kg), 19" × 15" × 9" lifelike and affordable CPR trainer, letting training centres provide individual students with their own manikin. For BLS certification centres, schools, and nursing colleges in India that want to build up a manikin fleet one unit at a time, or that already own carry bags and only need to add individual manikins, this single-unit option avoids paying for bag packaging they don't need.

The simple face shield lung system means no cleaning, disinfecting, or disassembly is required between trainees. The manikin includes a head tilt/chin lift feature to open the airway, tough vinyl skin for extended service life, and a foam-filled torso providing realistic resistance to compressions. Palpable landmarks ensure proper hand placement, and observable chest rise verifies effective ventilation. Includes three airways and instructions for use.

For training centres needing multiple manikins at once with included carry bag storage, the Economy Adult Sani-Manikin 4-Pack with Carry Bag (100-2145) is the more cost-effective bulk option.
