SKU:LF03995

Categories:BLS Adult

Product Description

The Life/form® CPARLENE® Full-Size Manikin with Heartisense™ enables accurate and effective training and assessment. Consists of apps and sensor kit that can be attached to a manikin currently lacking CPR feedback function Works with all manufacturer's CPR trainers Provides real-time feedback and a realistic interface Perform compressions, ventilations, or both Control up to 6 manikins at a time Digitally saves all training and assessment data Online LMS available Includes: Premium compression pad Control module Breath module Breath module holder (A, B) punch Punch guide Battery (1.5V "AA") Quick user guide Sponge (for Prestan manikin) Heartisense™ student* and instructor* apps Includes a full-size adult manikin, long-sleeve jacket and pants, 5 sanitary masks, 10 disposable lower airways, 10 disposable tracheal airways, 10 white fittings, and hard carry case with wheels 5-year warranty (manikin).

The Life/form® CPARLENE® Full-Size Manikin with Heartisense™ – Light (Item No. LF03995) is an advanced, app-integrated CPR training and assessment solution manufactured by Nasco Healthcare, USA. Unlike the CPR Metrix + iPad® version, this model uses the Heartisense™ sensor kit and companion apps — a versatile system that works with all manufacturers' CPR trainers, making it a highly flexible upgrade option for simulation centers already owning manikins from any brand.

The Heartisense™ system delivers real-time feedback on compressions and ventilations through an intuitive app interface compatible with Android™ and Apple® smartphones and tablets. The Instructor App supports simultaneous monitoring of up to 6 manikins at once, while the Student App provides individual real-time and summative CPR feedback. All training and assessment data is digitally saved, and an online LMS (Learning Management System) is available for institutional use. The sensor kit attaches easily to the manikin without any permanent modification.

The package includes a full-size adult female manikin (light skin), long-sleeve jacket and pants, 5 sanitary masks, 10 disposable lower airways, 10 disposable tracheal airways, 10 white fittings, hard carry case with wheels, premium compression pad, control module, breath module, breath module holder (A, B) punch, punch guide, 1.5V AA battery, quick user guide, sponge for Prestan manikin, and Heartisense™ Student and Instructor apps. The manikin comes with a 5-year warranty. Note: Tablet and smartphone devices are not included.

Q1. What is the Life/form® CPARLENE® Full-Size Manikin with Heartisense™ used for? It is used for CPR training and performance assessment, combining a full-size adult female manikin with the Heartisense™ app-based sensor system for real-time feedback on compressions and ventilations for both individual and group training sessions.

Q2. What is the key difference between this model and the CPARLENE® with CPR Metrix and iPad® (LF03993)? The CPR Metrix + iPad® version (LF03993) comes with an integrated iPad® and the CPR Metrix system — a closed, dedicated training platform. The Heartisense™ version (LF03995) uses an open, flexible sensor kit that works with all manufacturers' CPR manikins and connects to any Android™ or Apple® device (not included), making it more versatile for simulation centers with mixed manikin inventory.

Q3. Does the Heartisense™ system work with other brands of CPR manikins? Yes, one of the biggest advantages of the Heartisense™ system is that it works with all manufacturers' CPR trainers — not just Life/form® models — making it an ideal universal upgrade for any simulation lab.

Q4. How many manikins can the instructor monitor simultaneously? The Heartisense™ Instructor App supports simultaneous monitoring of up to 6 manikins at a time, making it highly effective for group

CPR training sessions.

Q5. What devices are compatible with the Heartisense™ apps? The Student App runs on Android™ or Apple® smartphones and tablets. The Instructor App runs on iPad® or Android™ tablets. Note: Tablet and smartphone devices are not included in this package.

Q6. Is an LMS available for institutional use? Yes, an online Learning Management System (LMS) is available with the Heartisense™ system, enabling institutions to manage, track, and record student CPR training and assessment data digitally.

Q7. What is included in the package? The package includes a full-size adult female manikin (light skin), long-sleeve jacket and pants, 5 sanitary masks, 10 disposable lower airways, 10 disposable tracheal airways, 10 white fittings, hard carry case with wheels, premium compression pad, control module, breath module, breath module holder and punch, punch guide, 1.5V AA battery, quick user guide, and Heartisense™ Student and Instructor apps.

Q8. What warranty does this manikin come with? The Life/form® CPARLENE® manikin comes with a 5-year warranty from Nasco Healthcare.

Q9. Who is this manikin ideal for? It is ideal for medical colleges, nursing institutes, BLS and ACLS certification centers, hospital training departments, and simulation labs looking for a flexible, app-based CPR training and assessment solution that works across multiple manikin brands.

Q10. Where can I purchase this in India? You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit semtrainers.com.

*Student app runs on Android™ or Apple® tablet/phone and instructor app runs on iPad® or Android™ tablet (iPad®, Android™, and Apple® tablet/phone not included).
