Life/form® "Airway Larry" with CPR Metrix and iPad®*

Item No. LF03996

Weight

Make: Nasco Healthcare, USA

[Read More](#)

SKU:LF03996

Categories:ALS Adult

Product Description

Manikin simulates a nonanesthetized adult patient for practicing intubation, ventilation, suction, and CPR techniques. Includes same electronic monitoring features as CPARLENE®. Features: Realistic anatomical landmarks Allows practice of oral, digital, and nasal intubation, as well as E.T., E.O.A., P.T.L., L.M.A., E.G.T.A., Combitube®, and King System insertion Suction techniques and proper cuff

inflation may also be practiced and evaluated Jaw thrust Palpable landmarks for hand placement Pliable abdomen for obstructed airway procedure Realistic practice of the Sellick maneuver Manual carotid pulse Includes supplies, instruction manual, and hard carry case *Student app runs on Andriod™ or Apple® tablet/phone and instructor app runs on iPad® or Andriod™ tablet (iPad®, Andriod™, and Apple® tablet/phone not included). The Apple logo is a trademark of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google LLC. iPad® is a trademark of Apple, Inc., registered in the U.S. and other countries. iPad® warranty statement: Any items not manufactured by Nasco are covered by the original manufacturers warranty and registration requirements. 5-year warranty (manikin).

Why Choose the Life/form® "Airway Larry" with CPR Metrix and iPad® for Your Simulation Lab in India?

The Life/form® "Airway Larry" with CPR Metrix and iPad® (Item No. LF03996, SKU: LF03996) by Nasco Healthcare, USA is the most capable configuration of the widely trusted Airway Larry airway management trainer — combining the full-featured airway torso with integrated CPR Metrix digital feedback and tablet-based performance assessment in a single package. It simulates a non-anaesthetised adult patient and is designed for practising intubation, ventilation, suction, and CPR techniques in a realistic, measurable, and debrief-ready format. The manikin carries a 5-year warranty, making it a durable long-term investment for simulation labs across India.

The airway training capability is comprehensive. Realistic anatomical landmarks support oral, digital, and nasal intubation, as well as insertion of ET tubes, EOA, PTL, LMA, EGTA, Combitube®, and King Systems devices. Suction techniques and proper cuff inflation can also be practised and objectively evaluated. The fully articulated jaw supports jaw thrust, and the palpable abdomen enables practice of the obstructed airway procedure. The Sellick manoeuvre can be practised with realistic cricoid pressure. A manual carotid pulse is palpable for patient assessment training. Palpable chest landmarks guide correct hand placement for CPR. The CPR Metrix system adds electronic monitoring of CPR quality — the same features as the CPARLENE® platform — enabling real-time performance assessment and structured debriefing via a student app compatible with Android™ or Apple® tablets and phones, and an instructor app running on iPad® or Android™ tablet. The package includes training supplies, instruction manual, and a hard carry case.

This trainer is ideal for airway management skill stations in ACLS and ALS programmes, anaesthesiology and emergency medicine residency training, NMC CBME-aligned clinical skills labs in medical colleges, and paramedic and nursing institutes across India that need a rigorous, feedback-enabled airway and CPR training platform in one unit.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+

institutions across 28 states. We provide pan-India delivery, on-site installation, app setup, faculty orientation workshops, and dedicated after-sales support. All products carry genuine manufacturer warranty — the manikin itself is backed by a 5-year warranty.

Frequently Asked Questions

Q: Is this trainer compliant with NMC simulation lab and ACLS/ALS airway training requirements?

A: Yes. This trainer supports oral, nasal, and digital intubation, supraglottic airway device insertion, suction, BVM ventilation, and CPR with real-time feedback — covering the airway management and resuscitation competencies required under NMC's CBME framework and AHA/ERC ACLS guidelines.

Q: Is a tablet or iPad® included with this product? A: No. The CPR Metrix app runs on Android™ or Apple® tablets and phones (student app) and iPad® or Android™ tablet (instructor app), but the devices themselves are not included and must be sourced separately.

Q: What is the warranty and how do I get support? A: The manikin carries a 5-year manufacturer warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.
