CRiSis™ Manikin

Item No. LF03890
Weight 88 lbs.
Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:ALS Adult

Product Description

Airway Management

- Compatible airway management devices include E.T., E.O.A., E.T.L., L.M.A., E.G.T.A., Combitube®, and King Systems
- Cricoid cartilage allows for practice of Sellick maneuver
- Oral, nasal, and digital intubation
- Palpable carotid pulse (manual)
- Realistic anatomical features
- Separate left and right lungs for auscultation
- Suctioning capabilities

Blood Pressure Arm

- Auscultatory gap
- 5 Korotkoff phases

- Systolic and diastolic levels, heart rate, and sound volume
- Radial pulse
- Use with an optional external speaker system to broadcast sounds to the entire classroom.

CPR

- Fully articulated head, neck, and jaw
- Jaw thrust
- Palpable and visual landmarks
- Compressible chest

Defibrillation Chest

- Compatible with all standard brands and types of defibrillators, monitors, and patient simulators
- Internal load box absorbs full strength of every shock — designed to handle up to maximum recommended 360 Joules
- Manual, semiautomatic, and automatic defibrillation
- Monitor manikin like a real patient at 4 ECG sites and 2 defibrillation sites

IV Arm

- Articulated at the biceps for antecubital and dorsal access
- Bony landmark at shoulder to identify muscle tissue for intramuscular injections
- Realistic flashback from a pressurized system
- Replaceable skin and veins
- 5-year warranty

Why Choose the CRiSis™ Manikin for Your Simulation Lab in India?

The Life/form® CRiSis™ Manikin (Item No. LF03890) by Nasco Healthcare, USA is one of the most comprehensive and widely deployed Advanced Life Support training manikins in Indian simulation labs. Weighing 88 lbs and built to withstand intensive multi-trainee use, this full-body adult manikin integrates five critical training systems into a single platform — airway management, blood pressure assessment, CPR, defibrillation, and IV access — making it the benchmark choice for ACLS and ALS training programmes across medical colleges, hospitals, and emergency medicine departments in India.

The airway management module supports oral, nasal, and digital intubation with compatibility for ET tubes, EOA, ETL, LMA, EGTA, Combitube®, and King Systems. A palpable cricoid cartilage enables Sellick manoeuvre practice, and separate left and right lungs allow bilateral auscultation. The blood pressure arm features all five Korotkoff phases with an auscultatory gap, adjustable systolic and diastolic levels, heart rate, and sound volume — with radial pulse palpation and optional external

speaker connectivity for classroom-wide sound broadcast. The CPR module includes a fully articulated head, neck, and jaw, jaw thrust capability, a compressible chest, and palpable and visual anatomical landmarks. The defibrillation chest is compatible with all standard brands and types of defibrillators and monitors, with an internal load box rated to absorb full-strength shocks up to 360 joules. ECG monitoring is possible at four sites and defibrillation at two sites — precisely replicating real patient monitoring protocols. The IV arm articulates at the biceps for antecubital and dorsal access, includes a bony landmark for intramuscular injection training, delivers realistic flashback from a pressurised system, and features replaceable skin and veins. The IV arm carries a 5-year warranty.

This manikin is ideal for ACLS and ALS training programmes, emergency medicine residency departments, ICU and anaesthesiology skills labs, paramedic training institutes, and NMC-mandated clinical skills labs in medical colleges across India that require a single, durable platform for multi-skill ALS team training.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation workshops, and dedicated after-sales maintenance support. All products carry genuine manufacturer warranty and meet ISO 9001 quality standards.

Frequently Asked Questions

Q: Is the CRiSis™ Manikin compliant with NMC simulation lab requirements for Indian medical colleges? A: Yes. This manikin supports the ALS, airway management, CPR, IV access, defibrillation, and blood pressure assessment competencies specified under NMC's CBME framework, making it fully suitable for ALS skill stations and OSCE setups.

Q: Does SEM Trainers provide installation and training support? A: Yes. We provide on-site installation, hands-on demonstration sessions, and faculty orientation workshops for every product delivered, anywhere in India.

Q: What is the warranty and how do I get support? A: All products carry standard manufacturer warranty, with the IV arm covered by a dedicated 5-year warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.
