SKU:

Categories: Catheterization

Product Description

The 2-in-1 simulator combines the features of female and male catheterization simulators at an economical price.

- Features include complete catheterization training interchangeable, realistic male organ fully functional stomas connected to removable, replaceable internal tanks and modular urethral valve to prevent fluid leakage.

Why Choose the Advanced Patient Care Male and Female Catheterization Simulator (Light) for Your Nursing Skills Lab in India?

This 2-in-1 catheterization simulator (Item No. SB28919 L) [BRAND TO BE CONFIRMED] combines

male and female catheterization training in a single, economically-priced unit. It includes complete catheterization training features, an interchangeable and fully functional realistic male organ, stomas connected to removable and replaceable internal tanks, and a modular urethral valve designed to prevent fluid leakage.

For institutions on a tighter budget that still need both male and female catheterization training, this 2-in-1 "Light" version offers meaningful cost savings over purchasing two separate dedicated simulators.

What's included: Instruction manual, soft nylon carry bag.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of leading simulation training brands in India, with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.
