Female Pelvis with Sacrum (Erler Zimmer, Germany) for Women's Health Education in India

The Female Pelvis with Sacrum (Item No. 4054, Brand: Erler Zimmer, Germany) is a natural casting of an adult female pelvis, with a removable sacrum for demonstrating movement in the iliosacral joint.

The removable sacrum turns a static skeletal model into an interactive teaching tool — trainees can

directly see and demonstrate how the sacrum moves relative to the pelvis at the iliosacral joint, a detail that's difficult to convey through diagrams alone. A straightforward, well-suited addition to any pelvic anatomy curriculum.
