SKU:

Categories:BLS Adult

Product Description

Why Choose the Professional Adult Series 2000 Manikin for Your Simulation Lab in India?

The Professional Adult Series 2000 Manikin (Item No. PP-AM-2000-1-MS) by Prestan Products, USA is the same high-quality, realistic Professional Adult Manikin now available with Advanced Feedback — rate, depth, recoil, ventilation, and hands-off time — delivered via a Bluetooth®-enabled PRESTAN CPR Feedback App for Apple and Android devices. Fully compliant with current industry guidelines, including the Heart and Stroke Foundation of Canada's February 2021 Use of Feedback Devices in

Resuscitation Training Courses Policy and the most recent AHA Integrated Feedback Directive. For ACLS training centres, nursing colleges, and BLS certification programmes in India pursuing data-driven CPR competency assessment aligned with international accreditation standards, this manikin is built specifically around Instrumented Directive Feedback Device (IDFD) requirements.

The PRESTAN CPR Feedback App monitors and displays advanced CPR feedback in real time, with results available for reporting — letting students self-monitor performance and build confidence during training. Instructors can monitor CPR performance for up to six students simultaneously, with training results downloadable directly from the app for competency documentation. Instructors can also easily calculate the Chest Compression Fraction from collected app data, making this manikin suitable for both basic and advanced training programmes. The app currently supports thirteen languages including English (US and International), German, Spanish, French, Italian, Dutch, Portuguese, Turkish, Russian, simplified Chinese, Japanese, and Korean — relevant for multinational training organisations and exchange programmes operating in India.

In combination with PRESTAN's traditional shoulder-mounted CPR feedback light system, the Series 2000 offers a dual-purpose training solution: instructors can choose advanced app-based feedback or basic light-and-beep feedback depending on the training stage. Lights confirm the 100–120 cpm compression rate range, with a yellow blink warning above 120 cpm, and an audible beep confirms the correct 2.0–2.4 inch compression depth.

Includes: a single Adult Series 2000 Manikin, Rate/Depth Monitor with Bluetooth App capability, Breath Sensor, Piston Plug, Color ID Labels, a 10-pack of Adult Face-Shield/Ventilation Lung-Bags, an Instruction Sheet, and a Carry Bag. For training centres with existing PRESTAN Professional Adult or Jaw Thrust Manikins (2018 models or newer), the Series 2000 Add-On Kit provides an upgrade path to the same Advanced Feedback parameters without replacing the manikin. Backed by a one-year limited warranty against defects in workmanship or materials under normal use.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Prestan Products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Frequently Asked Questions

Q: How many languages does the PRESTAN CPR Feedback App support? A: Thirteen, including English (US and International), German, Spanish, French, Italian, Dutch, Portuguese, Turkish, Russian, simplified Chinese, Japanese, and Korean.

Q: Can existing PRESTAN manikins be upgraded to Series 2000 feedback? A: Yes, via the Series 2000 Add-On Kit, recommended for 2018 manikin models or newer.

Q: What is the warranty? A: A one-year limited warranty against defects in workmanship or materials, covering both the Series 2000 Training Manikin and the Add-On Kit.

The same high quality, realistic Professional Adult Manikin is now available with Advanced Feedback including Rate, Depth, Recoil, Ventilation and Hands-Off Time via a Bluetooth® enabled PRESTAN CPR Feedback app available on both Apple and Android devices. Fully compliant with current industry guidelines, including the Heart and Stroke Foundation of Canada's February 2021 *Use of Feedback Devices in Resuscitation Training Courses Policy* and the most recent AHA Integrated Feedback Directive. **Includes:**

- Single Adult Series 2000 Manikin
- Rate / Depth Monitor with Bluetooth App. Capabilities
- Breath Sensor
- Piston Plug
- Color ID Labels
- 10- Pack Adult Face-Shield/ Ventilation Lung-Bags
- Instruction Sheet
- Carry Bag

Warranty Information & Guarantee PRESTAN offers a ONE YEAR LIMITED WARRANTY against any defects in workmanship or materials under normal use with respect to its PRESTAN PROFESSIONAL ADULT SERIES 2000 TRAINING MANIKIN and the ADULT SERIES 2000 ADD-ON KIT.

Additional Details:

Providing high quality, real time, advanced CPR feedback via a Bluetooth® connection with the PRESTAN Professional Adult Series 2000 Manikin. Advanced CPR feedback (includes rate, depth, recoil, ventilation, and hands-off time) is monitored, easily displayed and available for reporting allowing students to self-monitor performance and gain confidence during CPR training. The app allows instructors to provide comprehensive CPR training while monitoring CPR performance for up to six (6) students at a time. This app is also equipped with a reporting feature that allows for CPR training results to be downloaded directly from the app. The PRESTAN CPR Feedback app is for Instrumented Directive Feedback Devices (IDFD) that meet the most recent requirements of the American Heart Association and the Heart and Stroke Foundation of Canada's February 2021 *Use of Feedback Devices in Resuscitation Training Courses Policy*. Languages currently supported by the PRESTAN CPR Feedback app include English (US), English (International), Deutsch, Español, Français, Italiano,

Nederlands (Dutch), Português, Türk, Russian, Chinese (simplified), Japanese, Korean.

PRESTAN Professional Manikin CPR Rate Monitor

In combination with PRESTAN's traditional CPR feedback light system installed in the shoulder, the Series 2000 manikin offers a unique, dual-purpose training solution providing instructors with an option to train with either advanced or basic feedback.

The visual feedback gives students a real life feel of delivering 100-120 compressions per minute. Lights continually signal rate progression, confirming compressions are within the 100- 120 cpm range recommended by the Industry Guidelines. The yellow light will blink if the 120 cpm upper limit is exceeded, warning students to slow down. Instructors can monitor several students quickly and easily.

In addition to the visual feedback, students will also hear an audible beep as the chest is pushed to the appropriate depth of 2.0 -2.4 inches allowing them to experience the true force needed to deliver real life chest compressions.

Series 2000 Add-On Kit

The PRESTAN Professional Adult Series 2000 Manikin Add-On Kit provides instructors with an option to upgrade their current PRESTAN Professional Adult and Jaw Thrust Manikins with the new Advanced Feedback parameters. The PRESTAN Adult Series 2000 Add-On Kit is recommended for 2018 manikin models or newer.
