## Prestan Professional AED Trainer PLUS with English/French Module

Item No. PP-AEDT2-102  
Weight  
Make: Prestan Products, USA

[Read More](#)

**SKU:**

**Categories:**AED Trainers

## Product Description

The PRESTAN Professional AED Trainer PLUS is a leading-edge AED Trainer that most closely resembles brand AED Trainers in size and weight for a realistic training experience. This AED trainer features customizable options to match various training environments, including a child button. For use with patented PRESTAN Pad Sensing System Clear, confident voice prompts with optional CPR prompts to help the student keep pace with chest compressions. Easy to replace module containing current CPR guidelines and two languages. Comes standard with English/French language option. A remote is optional and available for instructors who prefer this feature. A single remote will control several AED Trainers within its range **Prestan Professional AED Trainer PLUS(4 C batteries not included)**

## Includes:

- English/French Module
- One set of Adult/Child Training Pads with Pad Sensing System
- Pads Storage Case
- Carry Bag and Instructions

The **PRESTAN Professional AED Trainer PLUS — English/French (Item No. PP-AEDT2-102)** by PRESTAN Products, USA is the English/French language variant of PRESTAN's most realistic professional AED trainer. Identical in hardware, features, and specification to the English/Spanish and English/Arabic models, this unit ships with the English/French module pre-installed — making it the appropriate choice for institutions serving French-speaking student cohorts within bilingual English/French medical education environments.

## Key Features:

- **Closest to real AED size and weight** — matched to leading brand AED form factor for authentic device familiarity training
- **Patented PRESTAN Pad Sensing System** — verifies correct adult and child pad placement before the scenario advances
- **English/French voice prompts** — clear bilingual guidance; French module pre-installed and fully swappable with any other PRESTAN language module
- **Optional CPR voice prompts** — switchable built-in prompts guide students through compression pacing during combined CPR+AED training
- **Child button** — dedicated paediatric AED sequence; adult and child cardiac arrest training in one unit
- **Swappable language/guideline module** — update to any language or future AHA guidelines by swapping the module; no unit replacement needed
- **Remote control compatible** — optional remote (sold separately) controls multiple units simultaneously
- **Adult/child training pads with Pad Sensing System, pads storage case, carry bag, and instructions included**
- **3-year limited warranty**
- **Power:** 4 × C batteries (not included)

**Note on Remote:** This SKU does not include the remote control. It is available separately. Institutions wanting the remote bundled should consider the PRESTAN AED Trainer PLUS Kit (PP-AEDT2-KIT-101).

**How It Differs from Other PRESTAN PLUS Variants:** The only difference between PP-AEDT2-

102 (this product), PP-AEDT2-101 (English/Spanish), and PP-AEDT2-113 (English/Arabic) is the pre-installed language module. All hardware, features, accessories, warranty, and performance specifications are identical. Select based solely on which language pair your institution requires.

**Q: What is the difference between this unit and the English/Spanish (PP-AEDT2-101) or English/Arabic (PP-AEDT2-113) models?** A: Only the language module differs — French in this unit vs Spanish or Arabic in the others. All hardware, features, pad sensing system, child button, CPR prompts, warranty, and accessories are identical. Choose based entirely on which language your student cohort requires.

**Q: Can the French module be swapped for another language later?** A: Yes. The module is replaceable — swap to English/Spanish, English/Arabic, English/Russian, or any future PRESTAN language or guideline update module without replacing the trainer unit.

**Q: Does this include the remote control?** A: No. The remote is sold separately for this SKU. If you need the remote bundled in the box, order the PRESTAN Professional AED Trainer PLUS Kit (PP-AEDT2-KIT-101) instead.

**Q: Does the CPR voice prompt feature work in French?** A: Yes. When the French module is active, all voice prompts — including the optional CPR compression pacing prompts — are delivered in French, ensuring consistent language throughout the training scenario.

**Q: Is this suitable for NMC-compliant BLS skills labs in India?** A: Yes. All PRESTAN Professional AED Trainer PLUS variants meet NMC-compliant BLS and ACLS AED skills station requirements regardless of language module. The pad sensing, CPR prompts, and child mode make it one of the most complete AED trainers for structured competency assessment.

**Q: What is the warranty?** A: 3-year limited warranty from PRESTAN covering defects in workmanship and materials under normal use.

- **Package Contents:**

| Item                                              | Detail        |
