- 10 Infant Face-Shield/Lung-Bags
- Instruction Sheet

- Carry Bag

Warranty Information & Guarantee

PRESTAN offers a THREE YEAR LIMITED WARRANTY against any defects in workmanship or materials under normal use with respect to its PRESTAN TRAINING MANIKINS.

Additional Details:

All PRESTAN Professional Manikins are available with a revolutionary CPR Rate Monitor that allows for instant feedback to both instructors and students. The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100-120 compressions per minute. Lights continually signal rate progression, confirming compressions are within the 100- 120 cpm range recommended by the Industry Guidelines. The yellow light will blink if the 120 cpm upper limit is exceeded, warning students to slow down. Instructors can monitor several students quickly and easily. In addition to the visual CPR Rate Monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth of 2.0 -2.4 inches allowing them to experience the true force needed to deliver real life chest compressions. The CPR Rate Monitor may be purchased separately to upgrade any non-monitored PRESTAN Professional Manikin.

Why Choose the PRESTAN Professional Collection – Medium Skin for Your Simulation Lab in India?

The PRESTAN Professional Collection – Medium Skin (Item No. PP-FM-300M-MS) by PRESTAN Products, USA is the most practical all-in-one CPR manikin bundle for simulation labs, BLS training centres, and community CPR programmes across India. In a single package, it delivers three manikins — one Professional Adult, one Professional Child, and one Professional Infant — all pre-installed with

PRESTAN's CPR Rate Monitor and Depth Clicker feedback system, batteries included. This three-in-one collection eliminates the need to source manikins separately for different patient age groups, making it the go-to choice for institutions that run AHA or equivalent BLS certification programmes covering adult, paediatric, and infant resuscitation in a single course.

All three manikins are fully compliant with current industry guidelines, including the most recent AHA Integrated Feedback Directive. The CPR Rate Monitor uses a visual LED system to provide instant real-time feedback — lights guide students to maintain compressions within the AHA-recommended range of 100–120 compressions per minute, with a yellow light warning when the upper limit is exceeded. In addition, a Depth Clicker gives audible feedback when the chest is compressed to the appropriate depth of 2.0–2.4 inches, confirming that students are applying adequate force — a critical skill gap in CPR training that most basic manikins cannot address. Instructors can simultaneously monitor multiple students with a quick visual scan of the LED indicators. The CPR Rate Monitor can also be purchased separately to upgrade any non-monitored PRESTAN Professional Manikin. The collection ships with 10 adult face-shield/lung-bags, 10 child face-shield/lung-bags, 10 infant face-shield/lung-bags, an instruction sheet, and a carry bag. PRESTAN backs all manikins in this collection with a 3-year limited warranty against defects in workmanship and materials under normal use.

This collection is ideal for BLS certification training centres, medical and nursing colleges running NMC-mandated simulation labs, hospital in-service CPR training programmes, and community CPR outreach initiatives across India that need a compact, reliable, guideline-compliant multi-age CPR training solution.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized PRESTAN distributor in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site demonstration, faculty orientation, and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Is this collection compliant with AHA BLS training guidelines and NMC simulation lab requirements? A: Yes. The PRESTAN Professional Collection is fully compliant with current AHA guidelines including the Integrated Feedback Directive, and supports the BLS competency requirements under NMC's CBME framework for medical and nursing institutions in India.

Q: Does SEM Trainers provide installation and training support? A: Yes. We provide on-site product demonstration and faculty orientation for every delivery, anywhere in India.

Q: What is the warranty? A: PRESTAN offers a 3-year limited warranty against defects in workmanship or materials under normal use for all manikins in this collection. For support, contact us at sem@semtrainers.com or call +91-88495 63724.
