qubeCTG Fetal monitoring from SKILLQUBE

Item No. qubeCTG
Weight
Make: SKILLQUBE, Germany

[Read More](#)

SKU:

Categories: Patient Monitor Simulators

Product Description

The new SKILLQUBE Fetal Monitor Simulator is a real-time cardiotocograph monitoring system. It is used in simulated obstetric settings during labor and birthing to display fetal heart rates and maternal contractions. qubeCTG is a tablet-based simulation system mounted into a professional rolling cart, mobile and flexible in use, ideal for in-situ simulations. It has a library of preprogrammed scenarios that will take students from basics to advanced scenarios with complex birthing issues.

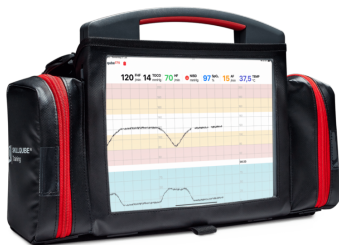

Functions

- Depiction of maternal vital signs
 - temperature
 - heart rate
 - oxygen saturation
 - blood pressure
- Tocogram
- Generic screen
- Integrated into the qubeCONTROL

Additional Features

Controller

- Control all vital signs via instructor software
- Browser-based scenario editor with image and video library
- **Hardware Configuration**
 - White rolling cart
 - Apple iPad 12,9"
 - Accessory bag
 - Fetal and Toco Transducer Sets

CTG Basic

- Software qubeCTG (full licence) • Shockproof hard case with carrying handle • Hardcase for iPad 10,9? incl. outer & front pocket • Monitor iPad 10,9? • Controller iPad 10,9? incl. protective case • Blood pressure measurement (RR) – adult cuff incl. connection cable • SpO2 sensor – adult incl. connection cable • CTG belt

CTG Premium

- Software qubeCTG (full licence) • Mobile cart system • Monitor iPad Pro 12,9? • Controller iPad

10.9" incl. protective cover • Accessory bag "Pax" – Inner bag FT • Blood pressure measurement (RR) – adult cuff incl. connection cable • SpO2 sensor – adult incl. connection cable • CTG belt

qubeCONTROL The qubeCONTROL is the comprehensive control unit for the trainer. Spontaneous, unexpected changes in the patient's image, provide special realism and real stress situations. **qubeASSESS** The assessment trainer enables auscultation of the chest and back, displays different blood glucose levels, measures the patient's temperature and includes relevant checklists such as ABCDE scheme. Send images and videos to the assessment tool, providing the trainee with all the necessary information. **Debriefing Solution** Assessing the situation, giving precise instructions, communicating correctly with each other: Team communication and medical procedures have to be learned. They have to be trained in order to make the right decisions in real operations.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of SKILLQUBE products in India with over 30 years of experience supplying advanced obstetric and patient monitor simulation equipment to 1,500+ institutions across 28 states. We provide pan-India delivery, installation, and dedicated after-sales support.

FAQ Q: What's the difference between CTG Basic and CTG Premium? A: CTG Basic uses a 10.9" iPad monitor in a hard carrying case, while CTG Premium uses a 12.9" iPad Pro monitor mounted in a full mobile cart system.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
