SKU:

Categories: Patient Monitor Simulators

Product Description

The sensors of qubeCPR provide the instructor with information on compression depth, speed, hands-off time, and CPR fraction in the integrated live display on the qubeCONTROL. Evaluation is done both for group performance and participant-specific assessment. In the controller, the instructor accesses a more detailed menu, where the last two minutes are graphically represented better to assess the progress and quality of cardiopulmonary resuscitation.

SKILLQUBE-qubeCPR — CPR Feedback Sensor (SKILLQUBE, Germany) for India

The sensors of qubeCPR (Item No. SKILLQUBE-QUBE CPR, Brand: SKILLQUBE, Germany) give the instructor real-time information on compression depth, speed, hands-off time, and CPR fraction through an integrated live display on the qubeCONTROL. Evaluation covers both group performance and participant-specific assessment.

In the controller, the instructor can access a more detailed menu where the last two minutes of CPR are graphically represented, making it easier to assess the progress and quality of cardiopulmonary

resuscitation.

Specifications: Weight to be confirmed. Brand: SKILLQUBE, Germany.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of SKILLQUBE products in India with over 30 years of experience supplying advanced CPR and resuscitation training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery, installation, and dedicated after-sales support.

FAQ Q: What does qubeCPR measure? A: Compression depth, speed, hands-off time, and CPR fraction, shown live to the instructor and evaluated for both group and individual performance.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
