Charlotte Henningsen, MS, RT(R), RDMS, RVT, FSDMS, FAIUM Chair and Professor - Sonography Department Adventist University of Health Sciences
April 1, 2022

Why Choose the Female Pelvic Ultrasound Phantom Full Set (7 weeks) for Your Sonography Training Program in India?

The Female Pelvic Ultrasound Phantom Full Set, 7 weeks (Item No. US-10, 7.2kg product weight, Brand: Kyoto Kagaku, Japan) lets students practice both transvaginal and transabdominal ultrasound procedures on a single unit, compatible with an actual ultrasound probe. Production and development were supervised by Charlotte Henningsen, MS, RT(R), RDMS, RVT, FSDMS, FAIUM, Chair and Professor of the Sonography Department at Adventist University of Health Sciences.

Three interchangeable phantom inserts with different pathologies let one manikin cover multiple clinical scenarios — general gynecological pathology, a 7-week pregnancy, and ectopic pregnancy — without needing separate phantoms for each. A realistic view of the female external genitals rounds out the anatomical accuracy for the complete procedural sequence.

Training applications: Handling and manipulation of transvaginal and transabdominal transducers, interpretation of sonograms, visualization and localization of anatomies and pathologies.

Set includes: Lower torso manikin, ultrasound pathology unit, ultrasound 7-weeks pregnancy unit, ultrasound ectopic pregnancy unit, talcum powder, syringe, storage case, instruction manual.

Specifications: Size W34×D33×H24cm (W13.5×D13.0×H9.5in). Product weight 7.2kg (15.9lb).

Replacement parts available: Ultrasound pathology unit (41909-030), ultrasound ectopic pregnancy unit (41909-040), ultrasound first trimester pregnancy unit (41909-050), skin for US-10/10A/10B (41909-060).

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Kyoto Kagaku products in India with over 30 years of experience supplying medical simulators and sonography training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Does this work with a real ultrasound probe? A: Yes — it's compatible with an actual ultrasound probe for realistic hands-on practice.

Q: What pathology scenarios are included? A: General gynecological pathology, 7-week pregnancy, and ectopic pregnancy, via three interchangeable inserts.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability
