Product Description

Part # PP-AFM-100M-MS The PRESTAN Professional Female Manikin is designed to transform CPR/AED training, improve CPR survival rates in women, encourage dialogue & breakdown barriers, and eliminate gender bias in CPR administration. Using the same trusted design as the Professional Adult Manikin, the Female Manikin is realistic to the eye and the touch, unlike any other CPR Training Manikin on the market. Lightweight with fast and simple setup. Equipped with a revolutionary CPR Rate

Monitor that allows for instant rate and depth feedback to both the instructor and student. Fully compliant with current industry guidelines, including the most recent AHA Integrated Feedback Directive. Available in medium or dark skin tones, with CPR Feedback only and in Single, 4-Pack or 4-Pack Diversity Kit configurations. Replacement skins are also available and can be used with the PRESTAN Professional Adult, Adult Series 2000, PRO+ Adult, and Adult Jaw Thrust Manikins. All PRESTAN CPR Training Manikins are Made in the USA. **Prestan Female Training Manikin (installed with Rate Monitor and Depth Clicker for CPR Feedback and AA Batteries not included) Includes:**

- 10 Adult Face-Shield/Lung-Bags
- Quick Start Card
- Carry Bag
-

Warranty Information & Guarantee

PRESTAN offers a THREE YEAR LIMITED WARRANTY against any defects in workmanship or materials under normal use with respect to its PRESTAN TRAINING MANIKINS.

- **PRESTAN Professional Manikin CPR Rate Monitor**
All PRESTAN Professional Manikins are available with a revolutionary CPR Rate Monitor that allows for instant feedback to both instructors and students. The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100-120 compressions per minute. Lights continually signal rate progression, confirming compressions are within the 100- 120 cpm range recommended by the Industry Guidelines. The yellow light will blink if the 120 cpm upper limit is exceeded, warning students to slow down. Instructors can monitor several students quickly and easily. In addition to the visual CPR Rate Monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth of 2.0 -2.4 inches allowing them to experience the true force needed to deliver real life chest compressions. The CPR Rate Monitor may be purchased separately to upgrade any non-monitored PRESTAN Professional Manikin.

Why Choose the PRESTAN Professional Female Manikin – Medium Skin for Your Simulation Lab in India?

The PRESTAN Professional Female Manikin – Medium Skin (Item No. PP-AFM-100M-MS) by Prestan Products, USA is designed to transform CPR/AED training, improve CPR survival rates in women, encourage dialogue, break down barriers, and eliminate gender bias in CPR administration. Using the same trusted design as the Professional Adult Manikin, it is realistic to the eye and touch, lightweight with fast and simple setup, and fully compliant with current industry guidelines including the most recent AHA Integrated Feedback Directive. For BLS certification centres, nursing colleges, corporate

first-aid programmes, and community CPR outreach in India that want to make female-patient CPR training an explicit, deliberate part of every certification course — not an optional add-on — this is a complete, dedicated female manikin rather than an accessory retrofit to an existing adult torso.

Equipped with the same revolutionary CPR Rate Monitor as the Professional Adult Manikin, giving instant rate and depth feedback to both instructor and student. Lights continually signal rate progression confirming compressions stay within the 100–120 cpm range, with a yellow blinking light warning if the 120 cpm upper limit is exceeded. A clicker sound confirms the correct 2.0–2.4 inch compression depth, giving trainees the true tactile force feedback of real-life chest compressions. Available in medium or dark skin tones, with CPR Feedback only, in Single, 4-Pack, or 4-Pack Diversity Kit configurations. Replacement skins are also available and compatible with the PRESTAN Professional Adult, Adult Series 2000, PRO+ Adult, and Adult Jaw Thrust Manikins — giving training centres flexibility to convert existing manikin inventory. All PRESTAN CPR Training Manikins are Made in the USA.

Includes 10 adult face-shield/lung-bags, a quick start card, and a carry bag. AA batteries not included. Backed by a three-year limited warranty against defects in workmanship or materials under normal use.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Prestan Products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Frequently Asked Questions

Q: What is the purpose of a dedicated female CPR manikin? A: To improve CPR survival rates in women by training rescuers to overcome documented hesitation toward female patients, encourage open dialogue, and eliminate gender bias in CPR administration — addressing a training gap standard adult manikins don't address.

Q: Can replacement skins be used with other PRESTAN manikins? A: Yes. Replacement skins are compatible with the PRESTAN Professional Adult, Adult Series 2000, PRO+ Adult, and Adult Jaw Thrust Manikins.

Q: What configurations are available? A: Medium or dark skin tones, in Single, 4-Pack, or 4-Pack Diversity Kit configurations, with CPR Feedback.
