Categories:Catheterization

Product Description

Why Choose the Strap-on Catheterization/Enema Simulator (Kyoto Kagaku) for Standardized Patient Training in India?

The Strap-on Catheterization/Enema Simulator (Item Nos. MW53/MW54/MW55, Brand: Kyoto Kagaku,

Japan) combines realistic hands-on skills training with genuine patient communication scenarios — the wearable genitalia model straps onto a standardized patient (a real person), letting students practice catheterization technique alongside the interpersonal skills of a live patient encounter, rather than practicing on a manikin alone.

The anatomically correct structure helps students acquire genuine body-sense awareness of the procedure, is compatible with balloon catheters, and produces realistic fluid outflow (simulated urine) when the catheter reaches the appropriate insertion length.

Available in: Male (0.5 kg, W8×D21×H18cm) and Female (0.4 kg, W8×D21×H9cm) variants. [Please confirm with SEM Trainers which item number — MW53, MW54, or MW55 — corresponds to which variant before ordering.]

Training skills covered: Cleansing and aseptic technique, catheter insertion and placement, confirmation of urine discharge, catheter removal, and enema administration.

What's included: Genitalia model, reservoir bag, drainage tube, strap band, shorts, lubricant, maintenance catheter, instruction manual.

Materials: Soft resin, latex-free.

Important: Use only the specified replacement lubricant (11381-800) with this device.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Kyoto Kagaku products in India with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: How does this differ from a standard catheterization manikin?

A: This wearable device straps onto a standardized patient, allowing simultaneous procedural and patient-communication practice — a live-patient training scenario rather than manikin-only practice.

Q: Which item number should I order? **A:** Please contact SEM Trainers to confirm which item number (MW53, MW54, or MW55) corresponds to your required variant.

Q: How do I order from SEM Trainers? **A:** Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.

Reality in skills training combined with scenarios for communication.

Features

1. Anatomically correct structure facilitates acquiring body sense along with the procedure. 2. Compatible with balloon catheters. 3. Water (simulated urine) flows out when appropriate length of a catheter is inserted.
