SKU:

Categories: Injections and Punctures

Product Description

Why Choose the Strap-on Venipuncture Trainer (Kyoto Kagaku) for Standardized Patient Training in India?

The Strap-on Venipuncture Trainer (Item No. MW50, 1.5 kg, Brand: Kyoto Kagaku, Japan) is a simple,

durable puncture pad that attaches to various sites on a standardized patient (a real person) or a training manikin — combining hands-on blood collection and IV injection practice with genuine patient communication scenarios.

The realistic material supports training across a variation of puncture sites, making it a flexible option for programs that want site-selection practice beyond a single fixed location.

Skills trainable: Blood collection, intravenous injection.

Features:

- Durable pad with realistic material
- Training across a variation of puncture sites
- Wearable on a standardized patient or a training manikin

Set includes: 5 holders, 5 strap-on belts, 5 bottles, 1 storage case, 1 instruction manual.

Recommended device: 22G IV needle.

Replacement parts available: Replacement injection pad, set of 5 (11431-010).

Optional parts: 10 simulated blood sticks/swab type (11388-400), arm vessels anatomy sleevelet (11430-010).

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Kyoto Kagaku products in India with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Can this be worn by a real person for standardized patient scenarios? A: Yes — it straps onto a standardized patient or a training manikin.

Q: What needle gauge is recommended? A: 22G.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
