SKU:

Categories: Ear, Nose and Throat (ENT)

Product Description

Life-size model with a ventral dissection of the human neck showing details of the main muscles vascular structures nerves and glands. Identifies 47 characteristics. Made from long-lasting synthetic material. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education providing opportunities for all students to increase their knowledge of anatomy physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 2.2 lbs. Dimensions. (Inches): 16.14 x 10.63 x 8.66
