SKU:

Categories:Muscle Models

Product Description

This 13-part model shows, in detail, the complete anatomical structure of the leg, with superficial and deep muscles, vascular structures, nerves and ligaments. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBS): 14.3 lbs. Dimensions. (Inches): 45.67 x 12.6 x 9.06
