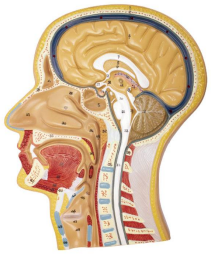
Categories: Head Models



Product Description

Life size and relief shows the internal structures of the head and neck for easy viewing. The front and middle sections of the human head can be compared. Mounted on durable polymer base; Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a

platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 4.6 lbs. Dimensions. (Inches): 23.62 x 18.11 x 6.3
