**SKU:**

**Categories:**Head Models

### Product Description

Life-size head model is dissected along the sagittal plane into 2 halves. Details of the cavity and larynx, as well as the oronasal muscles of the pharynx are represented in detail. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 3.3 lbs. Dimensions. (Inches): 8.27 x 6.3 x 11.81
