**SKU:**

**Categories:**Brain Models

### Product Description

Model divided into four parts, enlarged twice the natural size, is a detailed representation of the human brain stem and hypothalamus. The brain stem is sectioned to show the hypothalamic nuclei; the thalamus is removable and divisible into two parts for internal examination. The insertions of the cranial nerves are easily recognizable on the surface of the brain stem. Accompanies information card with related structures. Important anatomical structures are numbered and indicated in different colors for easy understanding. One-Year Warranty Ship Weight (LBs): 2.2 lbs. Dimensions. (Inches): 9.84 x 8.66 x 13.78
