Head Musculature Model, Enlarged, 10 Parts

Item No. MG29864

Weight 9.9 lbs

Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:Head Models

Product Description

Representative model of the head muscles enlarged twice, presented in ten parts, demonstrating a high degree of detail of the following structures: bones on the left side of the skull, simulated muscles on the right side, median section through the nasal cavity, upper cavity of the mouth and region upper throat. Lower part: lower jaw, removable tongue, larynx, pharyngeal wall, sagittal section through the larynx. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 9.9 lbs. Dimensions. (Inches): 12.99 x 12.99 x 19.69
