Larynx with Tongue & Teeth Model, 5 Parts

Item No. MG29773
Weight 2.2 lbs
Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:Lung Models

Product Description

Model displays in a didactic way the structure of the larynx with tongue and teeth, which can be disassembled into five parts. The model presents the 5 numbered regions in great detail, allowing visualization of the internal and external structures of the larynx and tongue, muscles, cartilage, ligaments and arteries. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education, providing opportunities for all students to increase their knowledge of anatomy, physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 2.2 lbs. Dimensions. (Inches): 4.72 x 4.72 x 7.87
