The Professional Infant Series 2000 Manikin with Advanced CPR Feedback, Single (Item No. PP-IM-2000-1-MS) is the latest generation infant CPR training manikin from Prestan Products, USA, weighing

6 lb and measuring 22 x 6.5 x 9 inches. This upgraded Series 2000 model features an advanced Rate/Depth Monitor with Bluetooth App capabilities, a Breath Sensor, and Color ID Labels — taking infant CPR training feedback to a whole new level of precision and technology.

The companion PRESTAN CPR Feedback App connects via Bluetooth to deliver real-time compression rate, depth, and ventilation data directly to a smartphone or tablet, enabling instructors to monitor individual and group performance simultaneously. The app supports an impressive 29 languages including English (US & International), German, Spanish, French, Italian, Dutch, Russian, Korean, Arabic, Malay, Thai, Vietnamese, Belarusian, Croatian, Czech, Danish, Finnish, Greek, Hungarian, Norwegian, Polish, Portuguese, Romanian, Slovak, Slovene, Turkish, Ukrainian, and Chinese — making it a truly global infant BLS training solution. The package includes the infant manikin, Rate/Depth Monitor with Bluetooth connectivity, Breath Sensor, Color ID Labels, 10 infant face-shield/ventilation lung-bags, a carry bag, and instructions. A three-year warranty is included.

Q1. What is the Professional Infant Series 2000 Manikin used for? It is used for infant Basic Life Support (BLS) and CPR training, offering advanced real-time compression rate, depth, and ventilation feedback via a built-in monitor and Bluetooth-connected app for both individual and group training sessions.

Q2. What is new in the Series 2000 compared to the standard Professional Infant Manikin? The Series 2000 upgrades to a Rate/Depth Monitor with Bluetooth App capabilities and adds a Breath Sensor and Color ID Labels, providing far more detailed and tech-enabled CPR performance monitoring compared to the standard LED Rate Monitor and Depth Clicker of the previous model.

Q3. How does the Bluetooth CPR Feedback App work? The PRESTAN CPR Feedback App connects wirelessly via Bluetooth to the Rate/Depth Monitor, displaying real-time compression rate, depth, and ventilation data on a smartphone or tablet — enabling instructors to monitor multiple trainees simultaneously with precision.

Q4. How many languages does the CPR Feedback App support? The app supports 29 languages including English (US & International), German, Spanish, French, Italian, Dutch, Russian, Korean, Arabic, Malay, Thai, Vietnamese, Belarusian, Croatian, Czech, Danish, Finnish, Greek, Hungarian, Norwegian, Polish, Portuguese, Romanian, Slovak, Slovene, Turkish, Ukrainian, and Chinese.

Q5. What is included in the package? The package includes the Professional Infant Series 2000 Manikin, a Rate/Depth Monitor with Bluetooth App capabilities, a Breath Sensor, Color ID Labels, 10 infant face-shield/ventilation lung-bags, a carry bag, and instructions.

Q6. What are the dimensions and weight of this manikin? The manikin weighs 6 lb and measures 22 x 6.5 x 9 inches, making it lightweight and easy to use and store during training sessions.

Q7. What warranty does Prestan offer? Prestan offers a three-year limited warranty against defects in workmanship or materials under normal use for all Professional Series 2000 manikins.

Q8. How does this differ from the Professional Child Series 2000 Manikin? Both share the same Bluetooth app, Rate/Depth Monitor, and 29-language support. The key difference is size and proportion — the infant manikin (PP-IM-2000-1-MS) is scaled and weighted to replicate a real infant, while the child manikin (PP-CM-2000-1-MS) represents an older child patient.

Q9. Where can I purchase this in India? You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit semtrainers.com.
