Geriatric IV Training Arm

Item No. 140-610**Weight** 16 lbs.**Make:** Nasco Healthcare, USA[Read More](#)**SKU:****Categories:** Geriatric Patient Care

Product Description

Geriatric IV Training Arm Developed from a live cast, this arm is unique to the industry. Its properties include veins that roll away or disappear as you attempt to catheterize the vessel and a specially developed skin that is exceptionally lifelike. Catheterization in this IV arm may be done either in the dorsal side of the hand or on the medial aspect of the forearm where you can palpate either a cephalic or basilic vein, including the antecubital fosse. If your students work with the aged, this adjunct to your teaching lab will enable them to better serve in the future. Comes with carry bag. Three-Year Warranty. Ship Weight: 16 lbs. Dimensions. (inches): 35 x 13 x 9

Geriatric IV Training Arm (140-610)

Developed from a live cast, this arm is unique to the industry. The Geriatric IV Training Arm (Item No. 140-610, 16 lbs., 35×13×9 in) by Nasco Healthcare, USA features veins that roll away or disappear as trainees attempt to catheterize the vessel, paired with a specially developed skin that is exceptionally lifelike.

Multiple realistic catheterization sites. Catheterization can be practiced either on the dorsal side of the hand or on the medial aspect of the forearm, where trainees can palpate either a cephalic or basilic vein, including the antecubital fossa.

A meaningful addition for students working with aged patients. This adjunct to your teaching lab helps trainees better prepare to serve elderly patients in real clinical practice.

Comes complete with a carry bag, and is backed by a three-year warranty.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.
