Product Description

An exceptionally detailed anatomical model of the placenta. It is a life-size model that shows the structures of the maternal side and fetal side including the inside of the placenta. The maternal side of the model presents the dark red structure of the decidua exposing the cotyledons. The fetal side of the

model reveals the smooth shiny amnion (amniotic membrane) partially removed exposing the intervillous space and umbilical vessels. Accompanying an interactive 3D anatomical model with augmented reality is a great tool to encourage learning and support. This platform allows students to engage in comparative analysis of anatomical models as they compare and contrast the structure of individual organs. This initiative also provides a platform for continuing education providing opportunities for all students to increase their knowledge of anatomy physiology and pathophysiology. One-Year Warranty Ship Weight (LBs): 2.2 lbs. Dimensions. (Inches): 4.72 x 4.72 x 7.87

Placenta Model (Nasco Healthcare) — Interactive Anatomical Model for India

An exceptionally detailed anatomical model of the placenta (Item No. MG16212, Brand: Nasco Healthcare, USA). This life-size model shows the structures of the maternal and fetal sides, including the interior of the placenta.

The maternal side presents the dark red structure of the decidua, exposing the cotyledons. The fetal side reveals the smooth, shiny amnion (amniotic membrane), partially removed to expose the intervillous space and umbilical vessels.

Accompanied by an interactive 3D anatomical model with augmented reality, this tool encourages comparative analysis — students can compare and contrast the structure of individual organs — and supports continuing education in anatomy, physiology, and pathophysiology.
