SKU:

Categories:Advanced Trauma Life Support (ATLS)

Product Description

TruWound is a realistic gunshot wound model with a pressure blood supply system to simulate severe haemorrhaging. It allows realistic wound packing training techniques with visual feedback when the correct pressure is applied to the packed wound. The pressurized blood system allows the instructor to control blood flow to either 1, 2 or all 3 wounds at once, making it ideal for a fast-paced classroom environment.

Haemorrhage Control Simulator

The **TruWound** is a realistic gunshot wound model with a pressure blood supply system to simulate severe haemorrhaging. It allows realistic wound packing training techniques with visual feedback when the correct pressure is applied to the packed wound. The pressurized blood system allows the instructor to control blood flow to either 1, 2 or all 3 wounds simultaneously, making it ideal for a fast-paced classroom environment. WHY CHOOSE TRUWOUND SIMULATOR?

- It's realistic! Size, appearance, and feel is realistic to a large bullet wound in the upper thigh and can be packed with haemostatic pads to teach wound packing procedures.
- It's durable! Tested for over 1500+ procedures without fail.
- Users can simulate heavy bleeding with venous and arterial flows with the pressurized blood system.
- The model provides visual feedback when the correct pressure is applied to the packed wound.
- Initial set-up time is less than 5 mins.
- The TruWound blood collection containers help keep mess to a minimum during packing procedures and the artificial blood is washable and will not stain the model.
- Suitable for a classroom setting by having three wounds operating simultaneously.

Package Contents

Product Code: TWO1000

- ■ 1x TruWound Model (includes x3 individual Wounds)
- 1x TruWound Carrier Case
- 1x Pressure Pump (holds up to 2 litres) + Tubing
- 3x Blood Collection Containers
- 1x Concentrated Blood 250ml (CVB250)
- 1x Plastic Refill Funnel
