SKU:

Categories:Mini Skeleton Models

Product Description

New **anatomy app** called 3B Smart Anatomy now included for FREE with Mini Human Skeleton Shorty with Painted Muscles on Hanging Stand, Half Natural Size.

Every original 3B Scientific anatomy model now includes these additional **FREE features**:

- Free access to the **anatomy course** 3B Smart Anatomy, hosted inside the award-winning Complete Anatomy app by 3D4Medical
- The 3B Smart Anatomy course includes **23 digital anatomy lectures**, 117 different virtual anatomy models and 39 anatomy quizzes to test your knowledge
- Bonus: **FREE warranty upgrade from 3 to 5 years** with every product registration

TIP: You will also receive access to a **free 3-day trial to all premium features** of the Complete Anatomy app when you sign up for your 3B Smart Anatomy course.

To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. [Click here](#) to learn more.

"Shorty" is a top of the line mini human skeleton with the detail of hand painted muscles. Skillful 3B Scientific engineers using powerful hardware and software optimized the process of reproducing miniatures in order to keep all anatomical details and structures even at half natural size (80 cm).

The skull can be removed and disassembled into three parts (skullcap, base of skull, mandible). The arms and legs are removable for easy study of the mini skeleton with painted muscles. The hip joints are specially mounted so their natural rotation can be demonstrated. The portrayal of the muscle origins (red) and insertions (blue) on the left half adds to the anatomical value of the skeleton. The muscles are numbered. The mini skeleton comes on a hanging stand that can be placed on the floor or mounted on the wall since it can be taken off of its base.
