- Bonus: **FREE warranty upgrade from 3 to 5 years** with every product registration

TIP: You will also receive access to a **free 3-day trial to all premium features** of the Complete Anatomy app when you sign up for your 3B Smart Anatomy course.

To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. [Click here](#) to learn more.

This 3 part hand skeleton model shows the anatomical detail of the ligaments and tendons found in the hand, wrist, and lower forearm. The interosseous membrane between the radius and ulna is shown along with the bones of the hand. The flexor retinaculum is removable from the hand skeleton. In addition there is a removable portion that can be fitted on the back of the hand model. This portion features the clinically important structures of the carpal tunnel such as the flexor retinaculum, median nerve, and tendons of the hand. This high quality hand model with ligaments and carpal tunnel is anatomically correct and great for detailed study.
