To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. [Click here](#) to learn more.

A worldwide unique high quality anatomical replica of original lumbar vertebra bones, which represents the finest anatomical structures in detail.

- Manufactured in excellent quality from 3B BONElike™ material, which has the look and feel of real bone
- Realistic weight
- These vertebrae are particularly useful in medical education as replacement for real bones as well as for patient education

The lumbar vertebrae are supplied on a base for easy display and study of the anatomy.

#### **Here's what 3B customers are saying about 3B BONElike™:**

“... a unique reproduction of a bone that cannot be distinguished from a real one. One of my staff members, a world-wide renowned bone specialist, was not able to distinguish the vertebra from a real one. I wish your company much success with your excellent artificial preparations.”

-Prof. Dr. Dr. h.c. Horst Erich König, Director,  
Institute for Anatomy, University of Veterinary Medicine, Vienna

“... I am convinced that you have developed the best bone ever created by man.”

-Prof. Vladimire Ovcharov, MD, DSc, Rector  
Medical University - Sofia

“Thank you very much for sending a vertebral body model. It was a pleasant surprise for me as a keen anatomist. In the first moment, I actually believed it was real bone! My compliments, the material has

excellent tactile feel.”

-Yvonne Kammerer, MD

Institute of Anatomy, University of Regensburg, Germany
