Categories: Human Skull Models

Product Description

New **anatomy app** called 3B Smart Anatomy now included for FREE with Human Skull with Facial Muscles.

Every original 3B Scientific anatomy model now includes these additional **FREE features**:

- Free access to the **anatomy course** 3B Smart Anatomy, hosted inside the award-winning Complete Anatomy app by 3D4Medical
- The 3B Smart Anatomy course includes **23 digital anatomy lectures**, 117 different virtual anatomy models and 39 anatomy quizzes to test your knowledge
- Bonus: **FREE warranty upgrade from 3 to 5 years** with every product registration

TIP: You will also receive access to a **free 3-day trial to all premium features** of the Complete Anatomy app when you sign up for your 3B Smart Anatomy course.

To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. Click here to learn more.

Use this model of the face musculature by 3B Scientific® to easily demonstrate causes of temporomandibular disorders and other dysfunctional disturbances of the TMJ and masticatory muscles.

The face and mastication muscles are illustrated on the right half of this skull and the face musculature can easily and precisely be differentiated from the mastication musculature by using two colors.

On the left half the muscle origins and insertions are marked with colors as well(origin: red, insertion: blue). The jaw is movable and due to the flexible musculature the rudimentary chewing motion can be demonstrated. Cranium and m. masseter are easily detachable.

Only highest quality material was used to manufacture this made in Germany model. Its durability make it perfect for hands-on teaching. Whether it is used in a classroom or a doctor‘s office, the demonstration is as realistic as a model can be.
