## Life-Size Human Heart Model, 5 parts with Representation of Systole - 3B Smart Anatomy

Item No. Weight Dimensions Brand Read More 1010006 [G01] 1.3 kg 25 x 21 x 13 cm 3B Scientific

SKU:

Categories:Human Heart Models

## **Product Description**

New **anatomy app** called 3B Smart Anatomy now included for FREE with Life-Size Human Heart Model, 5 parts with Representation of Systole .

Every original 3B Scientific anatomy model now includes these additional FREE features:

- Free access to the anatomy course 3B Smart Anatomy, hosted inside the award-winning Complete Anatomy app by 3D4Medical
- The 3B Smart Anatomy course includes **23 digital anatomy lectures**, 117 different virtual anatomy models and 39 anatomy quizzes to test your knowledge
- Bonus: FREE warranty upgrade from 3 to 5 years with every product registration

**TIP**: You will also receive access to a **free 3-day trial to all premium features** of the Complete Anatomy app when you sign up for your 3B Smart Anatomy course.

To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. <u>Click here</u> to learn more.

Invest in quality with this uniquely sectioned 5-part heart model by 3B Scientific. Cast from a real human heart and didactically prepared to facilitate a better understanding of the anatomy and blood flow of the heart. It shows the cardiac valves during diastole and on the base the valves are shown in systole. A dissection through the median plane makes an easy demonstration possible. Its attention to detail and high quality craftsmanship makes it definitely the top of the line heart model. The following feature set makes it stand out from the crowd and a must have for any health professional.

- All of the original heart structures were successfully obtained during the time consuming and detailed casting procedure making this model highly accurate and lifelike
- 2 atria and 2 ventricles show all the normal anatomical structures of the papillary muscles and heart valves
- Uniquely dissected in the median plane to optimally demonstrate the path of the oxygenated and deoxygenated blood
- The heart model shows both the diastolic and systolic state. In the model itself the valves are shown in the diastolic state and in the detail view on the base the valves are shown in the systolic

state

- The heart valves are made ??of elasticated plastic making them very durable
- The base displays the heart in its natural position in the human body
- Life size cast from real human heart
- Easy and fun to use magnetic assembly (5 pieces) for easy demonstrations
