**SKU:**

**Categories:**Auscultation

## Product Description

The Classroom Infrared Emitter is designed to provide simultaneous listening for a classroom or simulation lab full of students. Many institutions find value in utilizing the Classroom Infrared Emitter with high-priced manikins and simulators, allowing each student greater interaction with the sounds of the manikin or simulator.

The Classroom Infrared Emitter can be utilized by any manikin or simulator with a sounds output. Up to 30 students can interact with the Classroom Infrared Emitter while wearing HeartMan Infrared

Headphones. The Classroom Infrared Emitter is line-operated. The sound clarity is very similar to a standard stethoscope.

Product Features:

- Broadcasts sounds to larger audiences
- Excellent sound quality
- Utilizes Heartman Infrared Headphones
- Large number of applications
- Easy to set up and use
- Available for large and small auditoriums
- Up to 3 units can be daisy-chained for increased coverage
