SKU:

Categories:Auscultation

Product Description

When worn by the standardized patient, the suit simulates physiological conditions to test diagnostic and procedural skills. It is controlled wirelessly with easy to use software and responds in real time to

diagnosis and treatment with direct feedback.

Features 5-wire EKG connections, pulse points, blood pressure cuff accessory, as well as auscultation capabilities. Instructors can easily adjust and adapt the suit scenarios to fit many conditions wirelessly by using the SimScope® Wifi.

SimScope® Wifi, tablet and blood pressure cuff accessory included with system. Reusable and washable (30°C), available in different sizes.
