SKU:

Categories:Airway Management Adult

Product Description

The AirSim Advance Combo is the 'All in one' trainer for your airway management training needs, the model provides a complete solution without the need to purchase separate task trainers. The model features the AirSim Airway, Nasal passage, an anatomically accurate simulated cricoid, laryngeal cartilages and palpable tracheal rings with the addition of a bronchi which gives anatomical details

down to the fourth generation. The model was designed with the trainee in mind, the wraparound neck skin, larynx membrane inserts and the reusable larynx helps to provide a realistic and unique learning experience. The AirSim Combo X will provide a solution to your training needs in:

- Needle and surgical Cricothyroidotomy
- Percutaneous tracheostomy
- Direct and video laryngoscopy
- Endo and naso tracheal tube insertion
- Supraglottic device insertion
- Bag mask ventilation

Product components:

- 1 Carrier/storage case
- 1 USB pen drive user manual
- 1 Bottle of TruCorp® lubrication
- 3 Adult lung bags
- 5 Larynx inserts (1 attached, 4 extra)
- 1 Wrap around neck skin (attached)

Manikin can be used with Supraglottic airway devices for airway training.
