## Postpartum Hemorrhage (PPH) Control Trainer – C-Celia

Item No. 1022561  
Dimensions 31 x 25 x 12 cm  
Brand Operative Experience Inc.  
MPN: OB-100-2000  
Previous Item No. 1021387

**SKU:**

**Categories:**Gynecology

## Product Description

**Extremely realistic obstetric simulator for surgical and non-surgical Postpartum Hemorrhage (PPH) control after a Cesarean delivery.**

The C-Celia PPH Control simulator includes two durable, multi-use uteri, each one enabling repeated use in training sessions. It was developed for the simulation lab setting and is thus extremely durable and easy to clean, while the material gives the trainee a life-like training experience.

- Open (post C-section delivery) abdomen simulator for **management of diffuse bleeding** and

### repair of complex lacerations and uterine artery injuries

- Supports **hemorrhage control techniques** including Bakri Balloon, B-Lynch suture, Hayman suture and O'Leary Stitch
- **Surgical PPH control**: Compressive uterine sutures, uterine artery ligation, hypogastric artery ligation
- **Non-surgical PPH control**: uterine fundal massage, bimanual uterine massage, uterine packing, uterine tamponade, external aortic compression
- Enables **scores of procedures**
- **Realistic bleeding** with integrated fluid system
- **Economic** with low-cost replacement parts and multi-use uteri

When heavy to massive bleeding occurs after a Cesarean delivery, the medical team needs to work together fast and seamlessly. With **realistic obstetric simulation**, the team can practice medical procedures and clinical protocols to control PPH, and learn how to work together and control the situation. Obstetric emergency trainings can be true-to-life with the C-Celia suite of birthing simulators.

### Delivery content:

- Open (post C-section) abdomen simulator
- Two multi use uteri
- Lubricant gel
- Artificial blood

### C-Celia Feature Comparison:

The following guide gives you an overview of C-Celia's obstetric simulation features for difficult Cesarean deliveries.

| C-Celia: Complete Obstetric Training System for Cesarean Deliveries |                                                                                               |                                                                                                             |                                                                                                        |                                                                                                    |
