SKU:

Categories:BLS Adult

Product Description

An inexpensive manikin designed for teaching individuals or large groups the life-saving techniques of CPR.

The one-piece, [disposable lung/mouth protection bags](#) make this manikin completely sanitary. The airway opens using the head tilt/chin lift method and there is a visible chest rise when ventilated. The xiphoid process provides an anatomical reference point for hand placement and compressions. The manikin features both [adult](#) or [child](#) capabilities.

The pack includes 10 manikins, 100 lung/mouth protection bags and 2 carry bags.
