Product Description

HAL is an easy-to-use, portable airway management and CPR skills trainer designed for teaching resuscitation skills to students and professionals in EMS, Medicine, and Nursing, as well as lay rescuers. HAL was developed to increase the realism of resuscitation training and features a high-

fidelity airway and a durable chest recoil.

Features

- Manually open or close eyes
- Realistic head tilt/chin lift and jaw thrust
- Durable, lifelike airway anatomy
- Nasal and oral Intubation: ETT, LMA, King LT
- Palpable carotid pulse
- Visible chest rise with bag-valve-mask ventilation
- Gastric distension with esophageal intubation
- Right mainstem intubation presents unilateral chest rise
- CPR hand positioning landmarks
- Realistic chest compression recoil and depth
- Carrying bag
