Categories:AED Trainers

Product Description

Training for AHA scenarios:

- Provides both audio and written prompts in English
- Cables for training pads plug into the rear of the unit • Volume adjustment
- Large LCD display for written prompts
- Dimensions: 7-1/2" x 5" x 1-3/4"
- Low battery indication
- Powered by a 9V battery

Nasco Life/form® Universal AED Trainer:

Prepare students for emergency situations with the Nasco Universal AED Trainer.

Simply push a button to set the sequence of events that will help students learn the appropriate steps to follow in both “shock” and “no shock” situations.

The instructor can select from four training scenarios for manual and hands-free training.

Once the scenario is selected, the trainer will prompt the student in appropriate actions and responses. Lightweight, compact trainer comes with reusable pads and electrode sets, 9V battery, and operating instructions.

Updated with 2005 AHA Guidelines.

Basic Buddy™ CPR Manikin:

The Basic Buddy™ CPR Manikin is a dramatic, inexpensive, and state-of-the-art manikin designed for teaching individuals or large groups the life-saving techniques of CPR.

This manikin offers a realistic and affordable way to provide each student with their own CPR manikin.

The one-piece, disposable lung/mouth protection system makes this manikin completely sanitary - there is no risk of cross contamination and no need to sanitize the manikins after use!

The airway opens using the head tilt/chin lift method, and there is a visible chest rise when ventilated.

The xiphoid process provides an anatomical reference point for hand placement and compressions. The manikin also features both adult and child capabilities.

Basic Buddy™ manikin is simple to assemble and provides trouble-free maintenance. Consists of one manikin, 10 lung/mouth protection bags, one insertion tool, and an instruction manual.
