Categories:AED Trainers

Product Description

Training for AHA scenarios: • Provides both audio and written prompts in English • Cables for training pads plug into the rear of the unit • Volume adjustment • Large LCD display for written prompts • Low battery indication • Powered by a 9V battery Prepare students for emergency situations with the Life/form® Universal AED Trainer. Simply push a button to set the sequence of events that will help students learn the appropriate steps to follow in both “shock” and “no shock” situations. The instructor can select from four training scenarios for manual and hands-free training. Once the scenario is selected, the trainer will prompt the student in appropriate actions and responses. Lightweight, compact trainer comes with reusable pads and electrode sets, 9V battery, and operating instructions. Brad™ CPR Manikin: This economical CPR manikin is constructed of soft, realistic vinyl plastic over polyurethane foam for a “human” feel. Features include: a longer torso for realistic abdominal thrusts, realistic head tilt and chin lift for opening airway, can easily be manipulated to realistically simulate airway obstruction or choking situations, and a user-friendly lung/airway design that eliminates cleaning. Includes three mouth/nose pieces and three disposable lung/airway systems. Nylon carry bag

and kneeling pads included.
